

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

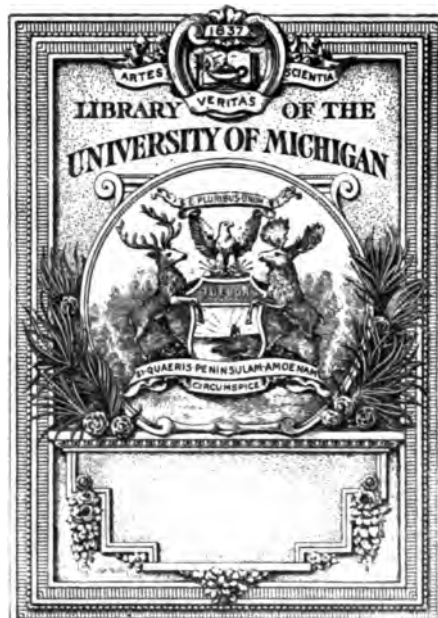

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

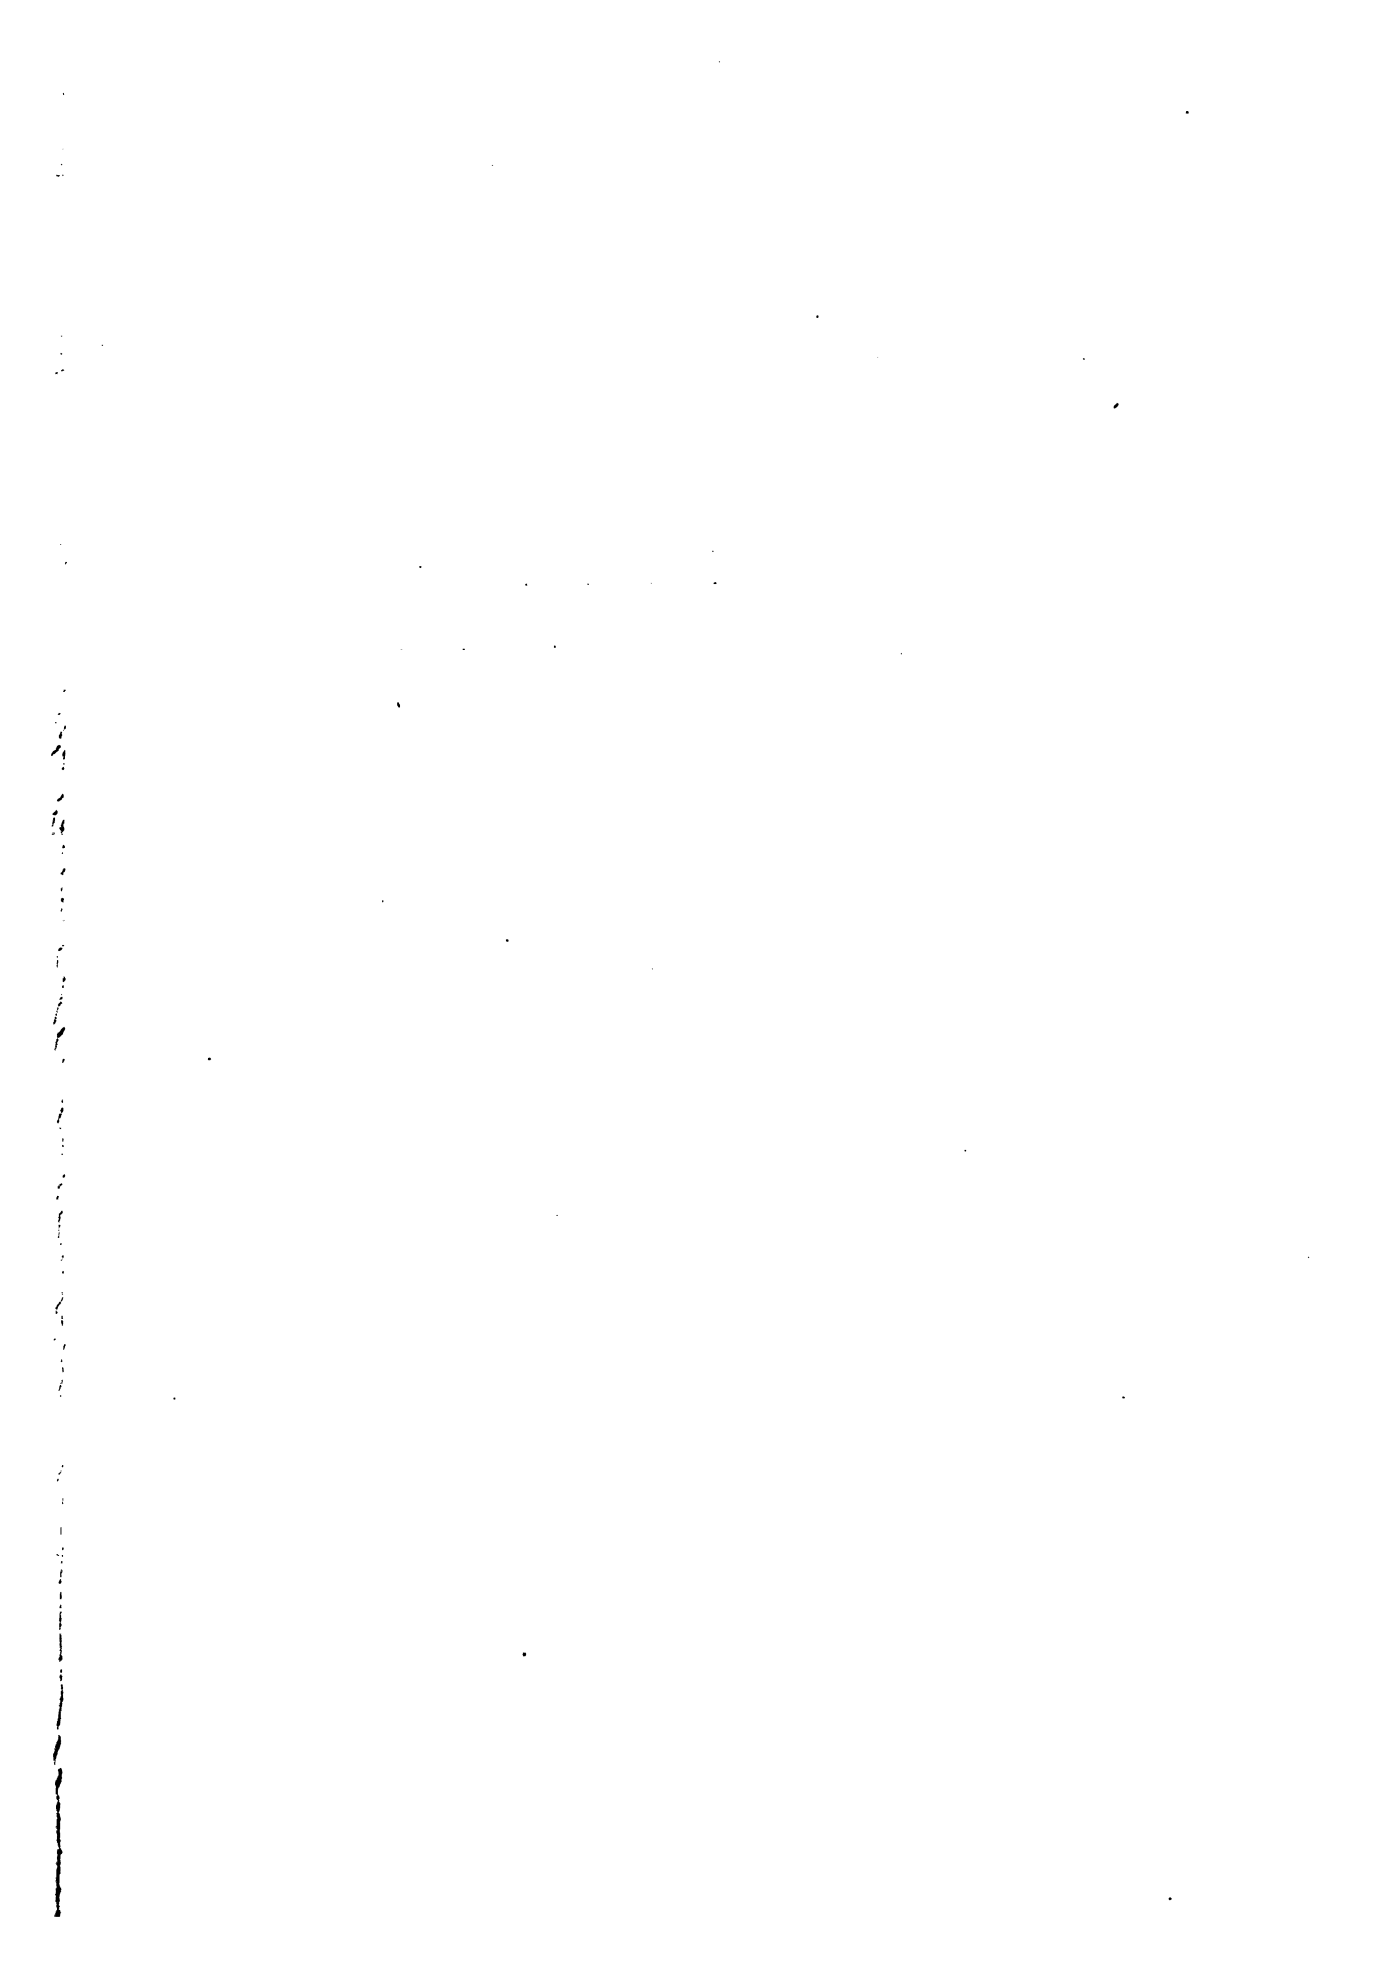

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. During the calendar year ending December 31, 1906, the number of volumes actually received was 30,966 and of pamphlets 70,401, of which 13,381 volumes and 29,113 pamphlets were gifts, and 6,916 volumes and 36,404 pamphlets were received by exchange.

The number of volumes catalogued was 30,335, and of pamphlets 33,044.

There are now on the shelves of the ASTOR and LENOX branches of the Library, available for readers, 696,365 volumes and 268,712 pamphlets. These with the 570,789 volumes in the circulation department give a total of 1,535,866 pieces in the whole system.

The total number of readers and visitors during the calendar year was 210,065; the number of desk applicants was 180,782, and the number of volumes consulted by these desk applicants was 802,874, as shown by the following table:

In 1905 the total amounted to 160,172 desk applicants and 677,946 volumes, an average of 13,346.83 desk applicants and 56,495.5 volumes per month, each reader using an average of 4.23 volumes. Increase of 1906 over 1905 amounted to 20,610 desk applicants and 124,928 volumes.

During the calendar year ending December 31, 1906, the Circulation Department (36 branches) circulated for home use 4,973,078 volumes; the number of readers consulting books from the shelves was 632,182; the adult reading-room attendance was 512,847, the total of such attendance being 807,289; the number of volumes accessioned was 96,770, giving a total of 570,789 on the shelves.

During the year four new circulation branches were opened, three of which provided new buildings for already existing branches, and one a new branch for the lower West side—the HUDSON PARK branch at 66 Le Roy Street, opened on January 26. The new building for MUHLENBERG was opened at 209 West 23d Street on February 19, for ST. AGNES at 444 Amsterdam Avenue on March 26, and for WEBSTER at 1465 Avenue A on October 24.

The assembly rooms of the HUDSON PARK, TOMPKINS SQUARE, 125TH STREET, and TREMONT branches were used experimentally by the Board of Education for the spring season of the evening free lectures; these same four branches have been used for the same purpose since the beginning of the winter courses, in all cases the Library remaining open for half an hour after the lecture to enable the hearers to withdraw books should they so desire.

Among the books received during the month may be mentioned those from the American Philosophical Society, volume 1 of its "Record of the celebration of the 200th anniversary of the birth of Benjamin Franklin," at Philadelphia, April 17-20, 1906; from the University Library of Breslau, 5 volumes and 72 pamphlets, dissertations for degrees, etc.; from Theodore L. De Vinne, his "Practice of typography," 4 volumes; from Mrs. Henry Winthrop Gray, a copy of the report of the trial of Prof. John W. Webster for the murder of Dr. George Parkman, Nov. 23, 1849; from the Universitäts Bibliothek of Jena, 10 volumes and 89 pamphlets, being dissertations for degrees; from Lady Meux, her elaborate issue of the Ethiopic text and translation into English of the life and miracles of Takla Hâymânôt (1905); from Daniel F. Cohalan "Annals of the Four Masters," edited by John O'Donovan, Dublin, 1851, 7 volumes.

At the LENOX branch the exhibition of photographs of Italian paintings, selected from the A. A. Hopkins Collection, remained on view, as did also the exhibit of etchings by Adolphe Lalauze. At the ASTOR branch the exhibition of plates and text from the "Etcher" (1881) remained unchanged, as did also the print exhibits at the various circulation branches.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows:

EAST BROADWAY, Books on Japan, Music and musicians, Visits from St. Nicholas, Whittier; RIVINGTON STREET, Indoor games; HUDSON PARK, Henry D. Thoreau, Western life, College sports; BOND STREET, Spain, Constantinople, Foods; TOMPKINS SQUARE, Snow; JACKSON SQUARE, Story hour; MUHLENBERG, Railroads, Sports; GEORGE BRUCE, Sea stories, Manhattan new and old, The drama, The horse; 67TH STREET, Santa Claus and his workshop, North American Indians, Hiawatha; RIVERSIDE, Babyhood, Tales of the sea, Indians, Animal friends, Sports for women, Dutch boys and girls; ST. AGNES, Automobile stories; 96TH STREET, Buildings in New York, Reading lists; BLOOMINGDALE, A British liner, His Majesty's navy; 125TH STREET, Volcanoes, Child labor, College and school, Coal and coal mining; MOTT HAVEN, Michael Angelo, Some great explorers; TREMONT, Colonial customs, Constitution, Dewey in Manila, Dickens, Friendship of books, Hague tribunal, Home life in the Philippine Islands, In the days of Elizabeth, Monroe Doctrine, Panama Canal, Winter; PORT RICHMOND, Polar regions; TOTTEVILLE, Reproduction of famous pictures of Madonna and child.

In addition there were bulletins on Christmas at twenty-two branches, on new books at seven branches, on the new year at five branches, on December birthdays of celebrated men and women at two branches, and on winter at two branches.

The collection of menus, formed largely by Miss Frank E. Buttolph, amounted at the close of 1906 to 15,194 pieces. Of this total 3,305 represent American daily bills of fare, priced; 363 belong to the group of foreign dailies; 239 were issued by railroads, and 5,041 for Atlantic and Pacific steamers. Among menus for special occasions 1,026 are classified as complimentary banquets, and 388 as military and naval banquets, and 337 as menus for national events. Patriotic societies number 393, and social clubs 534; commercial organizations number 616, and school and colleges 255.

At the meeting of the Board of Trustees held on January 9, 1907, the following minute on the services of Philip Schuyler was unanimously adopted:

"PHILIP SCHUYLER died suddenly, as the result of a railway accident, on November 29, 1906. He was essentially and by inheritance a distinguished citizen of New York. His ancestry was remarkable and distinguished on both sides. Major-General Philip Schuyler of the Continental Army and a Senator of the United States was his great-grandfather, as was Alexander Hamilton upon his mother's side. He was entitled from such progenitors to the possession of unusual qualities and to become himself in turn a marked American.

"Mr. Schuyler was born in the City of New York, on June 20, 1836. He spent some years at Harvard at the Lawrence Scientific School, afterwards attended scientific lectures for some time in Berlin, and subsequently entered upon the study of the law.

"The breaking out of the war, however, put a definite end to thoughts of a civil life, and he soon sought to place at the service of his country the training he had acquired in the Seventh Regiment, and in April, 1861, in response to the call of the President, marched as a private with his company for the protection of Washington.

"Toward the close of this temporary service he promptly sought service in the regular army, and his commission, signed by Mr. Lincoln and Mr. Cameron, then Secretary of War, as a First Lieutenant in the Fourteenth Regiment of Infantry, bears date August 17, 1861. In the service of the United States, with the pertinacity which distinguished him in life, he clung to the particular service in which he had enlisted, and remaining with his regiment or on the staff, served through the war as a regular, always faithful and distinguished, becoming Captain July 1, 1864, and Brevet-Major in the Army of the United States, April 9, 1865,—“for gallant and meritorious services during the recent operations resulting in the fall of Richmond, Virginia, and the surrender of the insurgent army under General R. E. Lee”—after which he retired from the service. It is not possible here to refer at length to his army record, which is a part of the history of the country.

"He brought into exercise in private life the same qualities which distinguished him as a soldier. He was capable, public-spirited and efficient, with liking and capacity for public affairs, and with temperament and manner making him a charming co-worker and companion. He was able to accomplish results by gentle insistence and kindly interest where others might fail, and in the effort he endeared himself to all with whom he came in contact.

"He became a Trustee of the Astor Library on February 14, 1894, and a Trustee of the New York Public Library on its formation, and was a most enlightened, useful and attractive member of the Board. He bore his full share of service on various committees and always with the same efficiency and in the same spirit.

"This minute cannot assume to deal with his personal qualities, his capacity for friendship, his charming social spirit, his sweet conception of the character of a host and of a friend. He has left nothing but kindly recollections, with thankfulness for his services and respect for his memory."

Six van Hillegom, 1 pamphlet and 1 print, the latter being an engraving by Pieter Dupont of Paul Potter's portrait of Dirk Tulp; from the Riksgäldskontoret, Sweden, 232 volumes, the Riksdagens Protokoll and the Bihang for 1868-1906; from Mrs. Frederic Ferris Thompson, 315 volumes, relating mainly to folk lore; and from Torquay, 1 volume and 15 pamphlets, all documents of the borough.

At the LENOX branch the selection from the A. A. Hopkins Collection of photographs of Italian paintings remained on view. On the lower floor, the Lalauze etchings were replaced on January 11th by an exhibition of the etchings of the late Dr. Leroy Milton Yale, who was closely connected with the history of painter-etching in this country, and who took a warm and active interest in our print department, especially in the effort to form a representative collection of American work. The exhibition includes a number of plates and etching tools

which, with all our specimens of his work, and a manuscript catalogue, were presented by the artist.

At the ASTOR branch the plates from the "Etcher" were replaced by plates from F. R. Martin's "History of Oriental Carpets before 1800." F. Hopkinson Smith's "Venice of to-day" remained on exhibition.

The exhibitions at the circulation branches were as follows: CHATHAM SQUARE, Racinet's Costumes after the XVIth century; RIVINGTON STREET, Reproductions of paintings by modern artists; HUDSON PARK, Hollyer's Etchings of New York City; TOMPKINS SQUARE, Color plates of birds; MUHLENBERG, Presidents of the United States; 67TH STREET, Masterpieces of art at Paris Exposition of 1900; RIVERSIDE, Racinet's Costume to XVIth century; ST. AGNES, Color plates from Audsley's "Ornamental arts of Japan," and photographic views in Japan; 96TH STREET, Plates from the Wilkie gallery; AGUILAR, Exhibition of architecture, sculpture, and views; 125TH STREET, Color plates of animals; 135TH STREET, Reproductions of paintings in the Dresden Gallery; HAMILTON GRANGE, Plates from Molinier's "Royal Interiors;" MOTT HAVEN, Reproductions of paintings by old masters; TREMONT, Photographic views in the Island of Luzon.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows:

EAST BROADWAY, Animals, wild and tame, Birthdays of celebrated men and women, Music and musicians, Opera scores; RIVINGTON STREET, Board of Education lectures, Shakespeare, Siegfried; BOND STREET, Chivalry, Roma Immortalis, Julius Cæsar, China, Sugar where and how we get it, Songs, Rhine and Heidelberg, Growth of a great city, Imperial Berlin; OTTENDORFER, Yellowstone Park, Alaska, When we keep house; TOMPKINS SQUARE, Board of Education lectures, Civil war from the southern point of view, Henry W. Longfellow; JACKSON SQUARE, Economics, Far East, Four American statesmen, Money; MUHLENBERG, Songs, Jean d'Arc, Richelieu, Mexico, Cuba, Jamaica, Panama Canal; 34TH STREET, Little cousin series, Indians; BRUCE, School and College stories, Goop panels, Manhatttan old and new; SACRED HEART, Popular Authors, Wasps and their nests; 67TH STREET, Goops, Little housekeepers, Little bread-makers; RIVERSIDE, Foreign children, Animal friends, Indians, Babyhood, Sea stories, English and French literature; YORKVILLE, Books for little folks; ST. AGNES, The opera, Fairy tales; 96TH STREET, Books about children, Greek heroes, Bed-time stories; BLOOMINGDALE, Animal pictures, Charge of the Light Brigade, Making and raising of cocoa, Flags of the world; AGUILAR, Songs and song writers, The Riviera, Greece, Naples and Vesuvius, Alexander Hamilton, Sicily, Holland, Charles Dickens, Turkey and the Turks, France, her people and her art, Progress of the telegraph, Photography, Petroleum, New York, Morocco and Southern Spain, Algiers and Algeria; 125TH STREET, Printing and paper making, Polar exploration, Stories of the opera; HAMILTON GRANGE, Indians, Candy country; MOTT HAVEN, Lincoln, Longfellow, Washington, Books for boys and girls, Some notable people and books about them; TREMONT, Fairy tales, Open squares of the people, Winter poems, Palaces of the Renaissance, Architecture; PORT RICHMOND, New Year's Day, Africa, Mines and miners, Games, The opera.

In addition there were bulletins on new books at four branches; on Japan at

four branches; on music at three branches; on Benjamin Franklin at three branches, and on William McKinley at two branches.

The second branch of the New York Public Library on Washington Heights, to be known as the HAMILTON GRANGE Branch, was opened on January 8 in a new building (the twentieth erected from the Carnegie fund) at 503 West 145th Street, near Amsterdam Avenue. At the formal exercises, which were held at four o'clock in the afternoon in the large assembly room on the basement floor, the whole building was open for inspection, but the work of the branch was not resumed until the following morning, Wednesday, January 9, at nine o'clock.

At the opening Dr. Billings, Director of the Library, acted as presiding officer. He received the building from Archbishop Farley, representing the Board of Trustees of the New York Public Library, and at once turned it over again to the library for administration. An address was also made by Rev. Dr. Joseph H. McMahon, of the Circulation Committee. Music was furnished by the Glee Club of Public School 186, by Our Lady of Lourdes Girls' High School, and by Miss Clara J. Smith.

The branch that occupies this new building was formerly the headquarters of the Cathedral Free Circulating Library, and was located for some time on the corner of Amsterdam Avenue and 86th Street. Its place in that neighborhood will be taken by the new branch opened last March at 444 Amsterdam Avenue, near 82d Street.

MANUSCRIPTS.

In addition to the manuscripts, noted below as bearing directly on the subject, the Library owns several large groups that contain historical material relating in some degree to Virginia. The Bancroft transcripts, drawn from various public and private archives, comprise a great quantity of documents and contemporary correspondence bearing on the course of events in the American colonies down to the close of the Revolution, with some of later date. The papers of the Boston Committee of Correspondence contain several letters from towns and counties in Virginia, written in 1774-75. The papers of Gen. Morgan and the letter-books of Gen. Gates and Greene relate to the campaigns in the south. The Yorktown campaign is described in the transcript of Washington's journal and in Col. Dearborn's diary. There is a quantity of colonial and revolutionary letters by various military officers, members of the Continental Congress and other prominent Virginians, in the volumes of the Emmet and the Myers collections, and among the miscellaneous unbound MSS. of the Ford collection, etc. In this connection may be mentioned also the correspondence of Samuel Adams with Richard Henry Lee. The records of the Loyalist Com-

Manuscripts, cont'd.

sion, transcribed recently for the New York Public Library, contain documents relating to the losses and services of Virginia loyalists. The Washington copy-press letters, 1792-1799, deal largely with agricultural and local matters, the management of his estate, the navigation of the Potomac river, etc. The papers of Gov. James Barbour, 1811-41, relate in some degree to the political affairs of Virginia as well as to those of the nation at large. Other material for the period, from the close of the Revolution to about 1835, may be found among the papers of Madison and Monroe.

Calendar of Virginia Public Papers.

The following list contains only those Virginia papers of an official nature that have heretofore been calendared; and it should be noted that the work of calendaring individual manuscripts has so far covered only the Emmet collection, the Samuel Adams papers, and some smaller groups.

Unofficial letters relating to Virginia are not included in this list.

Virginia Company. Clapham, Apr. 28, 1613. Petition to Lord Chancellor Ellesmere, praying that Sr Henry Nevill, Sr Henry Carye, Sr Willm Cornewallis, Sr John Cutts, the younger, Sr George Huntley, Sr John Radcliffe, Sr Walter Chute, Sr Arthur Manwaringe, Sr John St. John, Sr Thomas fireake, John Vaughan, Richard Monyngton, John Smithe, Arthur Ingram, William Hall, Edmond Allen, Sr Thomas Connyngsby, Richard Hall, Sr William Boulestrode and Nicholas Wheeler be cited to appear and answer for their arrears to the Treasury and Company of Adventurers and Planters of the City of London for the first Colony in Virginia. Musik von [blank]. Jersey City, N. J., 1898. Ms., German cursive characters. 109 p., 1 l. 4°. Paper.

Typewritten note pasted inside front cover states: "My book 'Pocahontas,' written in June, 1898, has been the outcome of a bet with Guenther Kiesewetter, the well-known musician and composer. Although he possessed a printed copy of a burlesque 'Pocahontas,' produced on the stage 30 or 40 years ago, he claimed that Pocahontas will never do for heroine of a Comic Opera and was only a fit subject for Romantic Opera, an opinion shared by the late German American poet Paul Immergrün, with whom he had discussed that subject. I contended that I could write a libretto for a Comic Opera embodying the historical and serious romantic features. The result was this manuscript. Since then I have occasionally worked on that book, which will be published in both English and German in this Jamestown Ter-Centennial Year, A.D. 1907."

At the regular meeting of the Board of Trustees held February 13, Edward F. Sheldon, Esq., was chosen to fill the vacancy caused by the death of Philip Schuyler.

LIST OF WORKS IN THE NEW YORK PUBLIC LIBRARY RELATING TO VIRGINIA.

PART II.

HISTORY BY PERIODS.

This list does not include records of the Spanish exploration of the Virginia coast, Ayllon's attempt at settlement, etc. The Library has sources for this part of Virginia history in the works of Navarrete, Herrera, Gomara, the Gentleman of Elvas, the *Documentos Ineditos*, etc., etc.

For the early English explorations and settlements in New England or "the North Plantation of Virginia," the Library has reports in the original editions by nearly all the early navigators, such as Brereton, Rosier, Gosnold, etc.

Hakluyt (Richard). The Voyages and Navigations of the English nation to Virginia, and the severall discoveries thereof chiefly at the charges of... Sir Walter Raleigh... together with the successe of the English colonies there planted; as likewise a description of the Countrey, with the Inhabitants, and the manifold commodities... (In his: *Principal Navigations*. London, 1600. v. 3, pp. 243-295.)

Robinson (Conway). An account of discoveries in the west until 1519, and of voyages to and along the Atlantic coast of North America, from 1520 to 1573. Prepared for "The Virginia Historical and Philosophical Society," by C. Robinson. ... *Richmond: Shepherd & Colin*, 1848. xv (1), 491 p. 8°.

The Raleigh Colony.

Letters Patent (The) granted by the Queenes Majestie to M. Walter Raleigh, now knight, for the discovering and planting of new lands and countries, to continue the space of 6. yeeres and no more. [25 March, 1584.] (Hakluyt's *Principal Navigations*. London, 1589. p. 725-728.)

— (idem. London, 1600. v. 3, p. 243-346.)

— (Hazard's Collection of State Papers. v. 1, p. 33-38. Philadelphia, 1792.)

— (Hawks' History of North Carolina. Fayetteville, 1857. v. 1, p. 11-17.)

Barlowe (Arthur). The first voyage made to the coasts of America, with two barks, where in were Captaines Philip Amadas, and M. Arthur Barlowe, who discovered part of the countrey now called Virginia, Anno 1584. Written by one of the said Captaines, and sent to Sir Walter Raleigh knight, at whose charge and direction, the said voyage was set forth. (Hakluyt's *Principal Navigations*. London, 1600. v. 3, p. 246-251.)

The most important gift of the month consisted of 332 volumes from the Honorable Elihu Root, Secretary of State, being a collection of reports, orders, statutes, translations of Spanish laws and documents, official opinions, decisions circulars, etc., printed in the course of the military government of Porto Rico Cuba, and the Philippine Islands, and of the civil government of the Philippine Islands, together with some volumes relating to kindred subjects, such as the China Relief Expedition of 1900, and various features of the War with Spain, the annexation of the Hawaiian Islands, and our insular policy and affairs.

Other gifts were from: Lord Amherst of Hackney, "A hand-list of a collection of books and MSS. belonging to the Right Hon. Lord Amherst of Hackney," compiled by Seymour de Ricci, Cambridge, 1906 (privately printed); from the British Museum, 3 volumes of catalogues, including Barclay V. Head's "Catalogue of the Greek Coins of Phrygia," London, 1906, J. F. Blumhardt's "Catalogue of the Marathi Guajarati, Bengali, Assamese, Oriya, Pushtu and Sindhi MSS., London, 1905, and G. K. Fortescue's "Subject Index of the Modern Works added," 1901-1905, London, 1906; from Loys Delteil, a copy of his "Le peintre graveur illustré, XIX et XX siècles. Tome 2: Charles Meryon," Paris, 1907; from the Frankfurter Zeitung, 1 volume and 2 pamphlets, including the "Geschichte der Frankfurter Zeitung 1856 bis 1906," Frankfurt a. M., 1906; from George A. Lucas, a copy of "Manet, graveur et lithographie, par Etienne Moreau-Nélaton," (No. 4 of 20 copies printed); from the American Ambassador to Mexico, a set of plans, with a descriptive album, relating to the General Hospital of Mexico, Mexico, 1905; from Charles B. Meyer, 48 volumes relating to railways in New York State; from the New York State Supreme Court, Appellate Division, First Judicial Department, 4,000 volumes and 2,000 pamphlets, a collection of briefs from 1900 to 1906; from Nicholas Wapler, 44 volumes of the "Illustrierte Zeitung," Leipzig, covering the period from 1884 to 1905; from Arthur Sandys, his "Annals of de Normandie as preserved in documents, notes, private papers, public records, the writings of old authors and the registers of the City of Geneva," Cambridge, 1901, one of fifty copies printed; from T. Jefferson Coolidge his "Autobiography," privately printed at Boston in 1902; and from Horace Hart of the Oxford University Press his "Notes on a Century of Typography at the University Press, Oxford, 1693-1794," printed in an edition of 150 copies in 1905.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows: EAST BROADWAY, Birds, Birthdays of celebrated men and women, Books on Japan, John Fiske, Music and musicians, Sir Edwin Landseer; RIVINGTON STREET, Indoor games, Sea stories, Roumania; HUDSON PARK, Lakes of New York and the Erie Canal, Niagara Falls, New England States, Cats, Ireland, Knights of the Round Table; BOND STREET, Folk Songs, Central Africa, Picturesque New Zealand, New York Harbor, Education, Battle of Gettysburg, Spectrum analysis and the stars, Color photo, Optics of painting; OTTENDORFER, Japan, Animal stories, John Milton; TOMPKINS SQUARE, Alice in Wonderland, Lists of books in connection with public lectures, Panama; MUHLENBERG, Modern Government, Julius Cæsar, Lafayette, Pilgrims; GEORGE BRUCE, Wild animals, Country life; 67TH STREET, The baby, Circus books, Picture books, Birds, Animals; RIVERSIDE, Country homes, Playtime, Henry W.

In addition there were bulletins on Arbor Day at eleven branches, on Spring at seven branches, on Jamestown Exposition at seven branches, on new books at seven branches, on birds at three branches, on Panama Canal at two branches, and on astronomy at two branches.

At the LENOX Branch, the exhibition of American engravings was continued. The exhibition of etchings by the late Dr. L. M. Yale was open until the 13th April, and was replaced on the 15th by an exhibition of bookplates and other engravings by the late E. D. French.

At the ASTOR Branch, Martin's "Oriental carpets" remained on view during the month. On the 6th of April Champier's "Les anciens almanachs de Paris" were replaced by a collection of American etchings, lithographs and engravings, and by Robert Shaw's Etchings of historic spots.

The new building for the 59TH STREET Branch of the library (henceforth to be called the 58TH STREET Branch) was formally opened on Friday, May 10, at 4.30 P.M. This building, which is situated at 121 East 58th Street, is noteworthy for the width of its front—65 feet—and the fact that it has separate entrances for children and adults. The branch occupying this building was formerly one of the branches of the Aguilar Free Library, and from February, 1898, until its consolidation with the New York Public Library on March 1, 1903, it served also as the headquarters of the Aguilar Library. At the opening exercises the City was represented by the Hon. Patrick F. McGowan, President of the Board of Aldermen, and the trustees by Dr. Billings, Director of the library.

Music was furnished by the Palley String Quartet, and by Mrs. Speke-Seeley.

The most important gifts of the month came from Mrs. Eliza Woolsey Howland and from Mrs. Henry Draper. Mrs. Howland's gift consisted to 21 volumes, including Pistolesi's "Real Museo Borbonico" (9 volumes, Rome, 1838-45), Flaxman's designs for the tragedies of Æschylus, Retzsch's "Outlines of Bürger's ballads" (Leipzig, 1840), Pinelli's illustrations for Don Quixote, Horeau's "Panorama d'Egypte," the whole given in memory of her husband General Joseph Howland. From Mrs. Draper were received the eight volumes by William Morris printed at the Chiswick Press from his Kelmscott Press Golden Type after his death and the closing of the Kelmscott Press; these eight volumes comprised his translations of the Odyssey and Æneid, the Volsunga Saga, House of the Wolfings, Roots of the Mountains, Grettir the Strong, Hopes and Fears for Art, and Architectural Industry and Wealth. Mrs. Draper gave also Reynolds' "God's Revenge Against Murder" (8th edition, London, 1740), the fifth edition (1832) of Wirt's Patrick Henry, and three aquatints by Mielatz "The Statue of Liberty," "Witch House, Salem," and "Old Tom's, Thames Street."

Other gifts worthy of mention came from: R. R. Bowker, 29 volumes and 56 pamphlets, including a number of publications of the Svenska Literatursällskapet; the Classified Catalogue of the Carnegie Library of Pittsburgh, from the Library; from the French Consul General at New York, 33 volumes of French documents; from the Hungarian Central Statistical Office, 6 of its statistical publications; from the Landsbókasafn, Reykjavik, 1 volume and 18 pamphlets, Icelandic documents; from Cortlandt Irving, a file of Blackwood's Edinburgh Magazine from 1835 to 1900; from the Library of Congress volume 7 of Worthington Ford's edition of the Continental Congress Journals, 1777, Washington, 1907; from Wilhelm Miller, 17 volumes and 1,600 pamphlets, all relating to agriculture; from Elihu Root, 11 volumes, relating to Cuba and the Philippines; and from Mrs. Gertrude King Schuyler, 69 volumes, a continuation of her gift of Russian books made in 1901.

The German-American collection was in receipt of gifts from Edward Neder, the Katholische Union von Missouri, Karl A. M. Scholtz, and others.

The exhibition of American work in the print department at the LENOX Branch was continued, as was also the display of book-plates and engravings by the late E. D. French in the lower hall. On May 17th a few plates from Mrs. Frankau's work on J. R. Smith and the Wards were displayed in the lower hall. At the ASTOR Branch the plates from Martin's "Oriental carpets," with the collection of American etchings, lithographs and engravings, etc., remained on view.

The only change at the Branches was the installation of color plates from Molinier's "Royal interiors," illustrating furniture and interior decoration of the 17th and 18th centuries in France, at the 58TH STREET Branch.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows: EAST BROADWAY, Athletics, Tales of the sea, Richard Wagner; HUDSON PARK, Music, Ireland, Western life; OTTENDORFER, Adventures of the sea, Keeping house; 67TH STREET, Little people of other lands, Building construction; RIVERSIDE, Country homes, Sports, Birds; WEBSTER, Japanese industries, southern industries; YORKVILLE, Spring indoors and out; 96TH STREET, Out of doors in May; AGUILAR, Panama Canal; 125TH STREET, Green things growing; TREMONT, Animal stories, Barbary corsairs, colonial customs, Joan of Arc, Railroad development in the United States, Sculpture.

In addition there were bulletins on Memorial Day at sixteen branches, on May Day at eight branches, on new books at eight branches, on Ian Maclaren at three branches, on Spring at three branches, on Jamestown Exposition at three branches, on Gardening at two branches, on John Paul Jones at two branches, on Arbor Day at two branches, and on birthdays of celebrated men and women at two branches.

Gifts of the month worthy of mention came from the following: John L. Cadwalader, 8 volumes, *Minutes of the Common Council of the City of New York, 1675-1776*, New York, 1905; from the Central and South American Telegraph Co., 17 volumes and 45 pamphlets, recent public documents of San Salvador and Guatemala; from Mrs. Henry Draper, 3 volumes and 13 pamphlets, including "The Romance of Mary W. Shelley, John Howard Payne and Washington Irving," and unpublished poems by Bryant and Thoreau, "Musings" by William C. Bryant and "Godfrey of Boulogne" by Henry D. Thoreau, the three being publications of the Bibliophile Society, 1907; from the City of Florence, 13 volumes and 2 pamphlets, municipal documents; from the Foreign Missions Library, 133 volumes and 198 pamphlets, magazines and government documents; from H. G. Freidman, 13 volumes and 16 pamphlets, Massachusetts state documents; from Mrs. E. D. French, 85 volumes and 320 pamphlets, works relating chiefly to Esperanto, Volapük and other universal languages; from the Imperial Society of Lovers of the Ancient Written Language, St. Petersburg, 4 volumes and 18 pamphlets in Russian, memorials of the society, etc.; from the Province of Quebec, 55 volumes, Sessional papers and documents of departments; from the Russian Minister of Public Instruction, 123 volumes of the "Zhurnal"; from Mrs. Philip Schuyler, 15 volumes and 17 pamphlets; from the Société Marie pour le Bien des Aveugles en Russie, 82 volumes and 9 pamphlets, publications and reports of the society, with a miscellaneous collection of Russian works relating to the blind, one printed in raised type; and from Prof. Ranieri Vilanova, 58 volumes and 66 pamphlets, a miscellaneous collection of modern French and Spanish history and drama, also a large number of musical pieces; from Henry Freudenthal, 23 volumes and 101 pamphlets, proceedings, etc., of the United Ancient Order of Druids, which, with earlier gifts from him, make a collection of about 200 pieces relating to this Order now in the Library.

At the LENOX Branch the exhibition of American work was replaced on June 7 by an exhibition of etchings, lithographs, and other prints by contemporary German artists, a large proportion of the last two being in color, the whole including interesting examples of technical dexterity and experiment. The "Künstlerbund Karlsruhe" is represented, and there is also a display of commercial work. At the ASTOR the display of Martin's "Oriental Carpets" was replaced on June 12 by plates from H. S. Williams' "History of the Art of Writing."

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows; EAST BROADWAY, Birthdays of celebrated men and women, Books on Japan, Flowers and plants, Stories of children for grown-ups; RIVINGTON STREET, Out of doors; HUDSON PARK, Knights of the Round Table, Good times in the Country, Automobiles; BOND STREET, Children's hour; TOMPKINS SQUARE, Boating, Best books, Heroines of fiction; MUHLENBERG, Vacation books for children; 67TH STREET, Vacation days, Cotton, Hiawatha, North American Indians, Stories of the Revolutionary War; RIVERSIDE, Summer-time, Country homes; YORKVILLE, Summer reading; ST. AGNES, Sea tales; 96TH STREET, Out of doors in June; BLOOMINGDALE, Butterflies, Robert Louis Stevenson, Flags; AGUILAR, Panama Canal; 125TH STREET, Patriotism, Country guides, European guides, camping; MOTT HAVEN, Naval Stories, Books for boys, Books

for girls; TREMONT, Birds, Paintings in Metropolitan Museum, Animals of Australia, Maoris; PORT RICHMOND, Vacation; TOTTEVILLE, Ships and ship building.

In addition there were bulletins on Flag Day at eleven branches, on Independence Day at nine branches, on new books at four branches, and on sports at two branches.

Two new circulation branches were opened in June, both in the Borough of Richmond, the Stapleton branch on Monday, June 17, at 3:30 p.m., and the ST. GEORGE branch on Wednesday, June 26, at 3:30 p.m.

At the STAPLETON opening Hon. George Cromwell, President of the Borough of Richmond, presided, as designated representative of the Mayor. Addresses were made by Dr. John S. Billings, Director of the Library; by Mr. Cromwell, and by Mr. Arthur E. Bostwick, Chief of the Circulation Department. A chorus from Public School No. 14, of Stapleton, furnished music.

At the ST. GEORGE opening Hon. George Cromwell presided and addresses were made by Hon. George L. Rives on behalf of the Trustees, and by Dr. D. L. Bardwell, District Superintendent of Schools, Mr. Arthur Hollick, of the Board of Education, Rev. Dr. James Clayton Howard, of Kingsley M. E. Church, Stapleton, and Mr. Arthur E. Bostwick. Public School No. 16, St. George, furnished music.

These two branches constitute the thirty-sixth and thirty-seventh branches in the Circulation Department of the Library, and the third and fourth in the Borough of Richmond. They are the twenty-second and twenty-third to be erected from Carnegie funds and the ninth and tenth to be opened as new branches directly by the library.

At the meeting of the board of estimate and apportionment on Monday, July 8, the contract (number VIII) for the electrical wiring, etc., for the new central building for the reference department was awarded to the Lord Electrical Company, its bid being for the sum of \$153,891.00. Work on the erection of the main structure (contract no. III) is now practically finished.

(Documentary History of the State of New-York. *Albany*, 1850. v. 2. 4°, pp. 638-639. 8°, pp. 1099-1101.)

A SHORT TREATISE on the application of Steam, whereby is clearly shewn, from actual experiments, that Steam may be applied to propel Boats or Vessels of any burthen against rapid current with great velocity. Great Velocity [*sic*]. The same Principles are also introduced with effect by a Machine of a simple and cheap [*sic*] Construction, for the Purpose of raising Water sufficient for the working of Grist-Mills, Saw-Mills, &c. And for Watering Meadows and Other Purposes of Agriculture. By James Rumsey, Of Berkeley County, Virginia. *Philadelphia, Printed by Joseph James: Chesnut-Street*, 1788. 26 p. 8°.

AMERICA.

Virginia.—Statutes.

Code :

1748. Acts of Assembly, Now in Force, in Virginia. n. p., n. d. 58 p. f°.

Supplement to the Code of 1733.

Session Laws.

1736. Aug. 5. n. p., n. d. 44 p. f°.

There are two editions of the acts of this session. In addition to the variations which a side-by-side and page-for-page comparison discloses, there is a variation in pagination, as noted below. Of the two editions the one collated as A is believed to be the earlier.

A. pp. 1-5, 10-11, 8-36, 33-44. Sig. B-E in twos, F in four, H-N in twos.

B. pp. 1-40, 37-40, 46-48. Sig. B-E in twos, F in four, H-N in twos.

1753. Nov. 1. *Williamsburg: William Hunter*, 1754. 1 l., 1-46 p. f°.

1754. Feb. 14. n. p., n. d. 4 p. f°.

1754. Aug. 22. n. p., n. d. 6 p. f°.

1755. May. n. p., n. d. pp. 5-35 (1). f°. Imperfect, pp. 1-4 lacking.

1755. Aug. 5. n. p., n. d. 22 p. f°.

1755. Oct. n. p., n. d. 8 p. f°.

1763. May. n. p., n. d. 90 (1) p. f°.

1764. Jan. n. p., n. d. 10 p. f°.

1771. July. *Williamsburg: William Rind*, 1771. 1 l., (1), 8 p. f°.

1772. Feb. *Williamsburg: William Rind*, 1772. 1 l., (1), 2-59 (1) p. f°.

There are two editions of the acts of this session. In addition to the variations which a side-by-side and page-for-page comparison discloses, there are variations in the imprint and paginations, as noted below.

A. *Williamsburg: William Rind*, 1771. 1 l., (1), 2-51 p. f°. Sig. A-N in twos.

B. *Williamsburg: William Rind*, 1772. 1 l., (1) 2-59 (1) p. f°. Sig. A-N in twos, O in fours.

The matter of the text in the two editions is identical and pp. 1-12 are identical in typography; thereafter and to p. 16 et seq., minor typographical variations occur. The difference in paging is due to use of a smaller font of type in the 1771 ed. from p. 16 et seq.

AMERICAN NAVAL AFFAIRS 1798-1802.

The following letters to Commodore Richard Dale are printed from the original manuscripts in the New York Public Library.

BENJAMIN STODDERT TO RICHARD DALE.

NAVY DEPARTMENT 13 JULY 1798.

SIR

Enclosed you will receive an Act of Congress which passed the 9th Inst—and new Instructions founded upon that Act, authorizing the Capture of French armed vessels, wherever found. You may therefore allow yourself a wider range, & keep farther from the shores. The French cruisers have too good information of your cruising ground to come within your reach. You will try whether you cannot fall in with them two or three degrees farther from the Coast—indeed if you have sufficient confidence in your crew, and ship, (which I wish was better prepared) you may have a better chance of falling in with them coming on our Coast, or going off with their prizes, by standing as far to the Southward as Latitude 34, & as far Eastward as Longitude 65—which will be about one Degree Westward of Bermudas, & in the tract of the Enemy[']s Vessels.

The Cutter at New York of 14 guns will be prepared for Sea by the 20th Inst—The Captain will be ordered to join you, & I hope will be ready to do it on that day. You will Judge whether it will be most prudent to wait until you have this Vessel under your Command, before you venture so far as I have suggested.

Capt. Dectaur in a better appointed ship than yours has been more fortunate than you have yet been—but let not that circumstance make you uneasy. Your Services have been highly advantageous in protecting the merchant Vessels, & in keeping in a great degree the Enemy from our coasts—and the confidence of the President, and your Country, in your vigilance, enterprise, & Bravery, is undiminished.

The Coast from Cape Henry to Long Island, is still to be the object of your protection. It is not unlikely that in stretching farther South, you may fall in with Capt. Truxton.

Congress it is expected, will adjourn in two or three days without a positive declaration of War. Yet we shall not on that account, be the less at War with the armed Vessels of France. But it is the policy of this Country & Justice requires, that we should not forget, that we are at Peace with all the rest of the World. You will therefore treat the Vessels, Citizens, & Subjects of all other nations, as you would wish to be treated by them. American Commanders, will not suffer themselves, to be outdone in Zeal & Bravery in the Service of their Country—nor should they, in their attention to the Duties of Hospitality & Humanity. If you should ever fall in with an American Vessel captured by an Armed Vessel of any Nation

at War, the French excepted, you must not retake her. The Law of Nations forbids it, & we must respect that Law. It must be presumed that their Courts will render Justice.

It is hardly necessary in writing to a Brave man who loves his Country, & is employed in her Service, to Suggest the propriety of inculcating upon the Minds of those under his Command, the Same Respect which he himself feels for our Government, Chief Magistrate, Congress, & our Laws. It has been too much the fashion with many of our Civil officers both at home & abroad to indulge themselves in the licentiousness of Villifying the Government & those institutions & those virtuous Characters, which it has been the honor & the happiness of our Country to have produced. This disgraceful licentiousness, I hope will never be tolerated in our Navy. How can we expect to Command respect to our Government, from other Nations, if we do not ourselves, set the example? It is time we should establish a National Character. Let that Character be, love of Country, & Jealousy of its honor & in Seamen, also veneration for our Flag. This Idea comprehends everything that ought to be impressed, & no more than ought to be impressed upon the Mind of all our Citizens, but more especially, of those who are also Seamen & Soldiers.

Wishing you success & honor, I remain

Sir Yr most obed Serv't

BEN STODDERT

You will still call at the Cape, of Delaware, every 10 or 12 Days, to receive any communication necessary to send you.

Capt. RICHARD DALE.

Enclosure in letter from Stoddert to Dale.

JOHN ADAMS President of the United States.

Instructions to the Commanders of armed Vessels belonging to the United States, given at Philadelphia the twenty eighth day of May in the Year of our Lord One Thousand seven hundred and ninety eight and in the twenty second year of the Independence of the said States.

Whereas it is declared by an Act of Congress passed the twenty eighth day of May 1798 that armed vessels sailing under authority or pretence of authority from the Republic of France have committed depredations on the commerce of the United States and have recently captured the vessels and property of Citizens thereof, on and near the coasts, in violation of the law of Nations and treaties between the United States and the French Nation.

Therefore and in pursuance of the said Act you are instructed and directed to seize, take and bring into any port of the United States, to be proceeded against according to the laws of Nations, any armed vessels sailing under authority or

pretence of authority from the Republic of France, which shall have committed or which shall be found hovering on the Coasts of the United States for the purpose of committing depredations on the vessels belonging to Citizens thereof and also to retake any ship or vessel of any Citizen or Citizens of the United States, which may have been captured by any such armed vessel.

By Command,

JAMES MCHENRY.

BENJAMIN STODDERT TO RICHARD DALE.

WASHT, 17 FEBY 1801.

DR SIR:

I have sold to Capt—or rather Lt. Shaw of the Navy, five lots—he pays me 1000 Ds in money the residue about 1500 Ds. one half in 9—one half in 15 months. Now it does not suit my affairs to wait 15, 9 or even 3 months for any money which it is possible for me to get sooner. And therefore I calculate that you will take Shaws notes for the distant payments, & will give me the money, deducting at the rate of one p ct. p month—which is more than you can certainly make in any other way. Shaw you know, is very good, & that he will pay punctually. In order to prevent delay I shall request him to make the notes payable at once to you, but if you prefer to have my name as an endorser, you may have it so, & the notes can be made payable to me.

I have been able to attend so little to my own affairs for the last 30 months, that I shall find them on my retirement from office on the 4 March extremely embarrassed—With a great deal of property, I shall be puzzled to pay as soon as I ought to pay, a good many small Debts & some larger, merely because I cannot turn my resources to account as soon as I wish to do. This difficulty alone a[t] Pres^t. has interfered with my arrangements & put back my sales. The Election of Jeff^a.—for I fear that will be the result—& probably this Day, will create a shock, which will not pass away for three or four weeks. It is therefore that I impose on you, this req^t.—I suppose indeed there will be more People in Phil^a who would wish to invest their money in good private, in preference to Public, paper—for they will fear the Funds will go to the Devil under Jefferson's admⁿ.—but there is no danger of the funds, nor I believe of any thing else—& I am not without hopes that good will arise out of evil.

You have bo^t. no lots in the City I believe—I wish you would buy 10,000 D^s. worth from me, which in 18 months will be worth to you at least 20,000—but as you did not buy when you were on the spot I do not Suppose you will do it at a distance.

You have seen my report* to the Naval Committee—it will I believe be adopted—Mr Jeffⁿ I understand is not adverse to it—Would you like to be one of the board of Navy officers; there is a bill before the House appointing 3 Captns but they must reside at Washington. Answer this question if you please. S. Smith will I have no doubt, succeed me, & will if he makes the arrangement pursue [the] one I shall suggest.—at least [I] believe so.

I am with great esteem Dr Sir yr most obed Serv.

DEAR SIR

taking it for granted that you will arrive at Hampton this Morning, I send the pinnace for you with an officer—and Shall be gratified by an early opportunity, of Congratulating you on your post—to the Command of the Squadron.

I have the honor to be Dear Sir Your very ob't Servant.

[Endorsed:] Thomas Truxton, on Giving up the Command of the US Ship President to Comdr. R. Dale.

TRUXTON TO DALE.

PERTH AMBOY 8th JUNE 1802

DEAR SIR

I have just returned from New York and found on the table in my study your two favors of the 20th ult. and 1th instant. Mr. Stoddert is now at Boston and is so intri[n]sically a good man in all respects that I feel deeply and anxiously interested for whatever concerns him, but particularly so in disposing of his city lots, as it would relieve his mind from pecuniary embarrassments, occasioned by his long absence from home attending and devoting his whole time at Philadelphia to the publick weal—for which the powers that be would give

* His report of 15 January, 1801, showing the condition of the navy and its expenses, and recommending the creation of a board of navy commissioners (Am. State Papers, Naval, v. 1, no. 21).

him a federalists reward (Ignorimy) had they it in their full Command so to do; for mean are the meritorious Statesman and Soldier by their side—alike stands the wise, alike the brave who with them will not aid, in the distruction of our happy Constitution.

This is what I believe of those in power, and without fear I speak what I believe of that Sect, and write it also. I feel No Necessity to Conceal their baseness or to use delicacy towards them, tho' no person alive is more cautious in this respect even of suspicious characters than I am, but whenever I discover a man, or set of men to be false whom I once knew & respected, I regret his or their depravity and with reluctance say be gone—I shall know you no more. Had Mr Stoddert been Secy. of the Navy when he wrote me at Norfolk last Year, to endeavour to dispose of his Washington lots, which I accomplished by interesting myself in a company—tho' I had at the time more of that sort of property than I wished: You may believe me when I say that I should have declined his agency: lest some jealous and impure wretch, destitute of mind, should have put an unfair and ungenerous construction on a benevolent act; but at that time this invaluable man could in no way serve me—he was not only out of office and opposed to Jefferson and his party, but was poor, as he is now, from not being able to dispose of any part of his fast Estate.

I heard of Your indisposition at New York, but from the manner it was mentioned supposed it no more than the effects of too generous living, common after a long absence to us all; but from your letter I am sorry to find it otherwise, and wish you speedily and completely releived.

Having noticed the two points on which you touched in Your letter of the 20th ult. (Mr Stoddert and your health) I now unfold and lay before me your favour of the 1th current: In which you say you are at a loss to discover my motive in sending you Tingey's letter to read of the 3d of May. Could I for one moment have believed you would have been at a loss to have conjectured or Rather not have seen my motive, some Trouble should have been saved to us both—first I should not have sent it, and secondly you would not have had the trouble of reading it. Especially as among those things I detest most, is to Conjecture; lest I should Conjecture wrong, and thereby injure even in my own mind the innocent, of either sex. You say however, that I will tell you my motive when we meet. I hope we shall meet soon, but lest not so soon as I wish I will tell you now, for I have no secrets of my own heart, and the only secrets of any moment that I ever had was when engaged in trade: now and then I had commercial secrets—or when in service I had a few state secrets.

Heaven and Earth has been witness to the ungentlemanly conduct, I have experienced from the present administration, and of their ingratitude to me as an officer, who throughout the war with France was constantly at sea and ever ready to lay down my life to revenge the wrongs of my country offered by that or any other nation, and as the greatest proof I can boast, I have the nations approbation—which will remain on record when Jefferson and his sect are sunk into obscurity. Yes my friend when they are no more, and not a bone or vestage of them is to be found under the Surface of the earth. These men of little minds and bad hearts "have felt power and forgot right." Their cruelty in my case is unknown among civilized nations—their measures created and adopted by the

secret machinations of midnight caucus's at Washington to destroy me, for not yielding to them my political opinions, was worthy only of Barbarians in Authority. for altho I have always been a federalist and abhorred Jacobinism and whatever could tend to disorder—yet not one of the administration ever doubted my obedience to Legitimate orders—tho' the rulers I knew from the first to be inimical to me, particular[ly] the family of the Sec^y of the Navy. It would be too tedious to go into a full detail of the conduct of the governing party here as it respects my dismissal. Suffice it to say, You have not from them heard the truth—they have not spoken the truth in their statement. I was very desirous to go on the service I had engaged in, and consequently did not attempt to enter on any new ground with the Sec^y of the Navy after I arrived at Norfolk, but on the contrary when I found the officers promised did not arrive at their posts, I respectfully contended for what Mr. Smith promised and had in his power to furnish, for if Captain Campbell was not in a condition to go on service in capacity of commander of the flag ship, as the Sec^y was pleased to call my ship, and there was no other captain that he could furnish, why did he not as I had in the autumn proposed knowing there was but nine captains retained, and two of these was never to go on service again—which reduced the number for employment to seven—Give a Lieutenant Commandant to command the Chesapeake. Either Lt Sterrett or Lt Hull would have answered the purpose and both were in port when it was known by Sec^y Smith that Captain Campbell from his crippled state could not go—and with either of those active young men I should have been most completely satisfied.

A Lieutenant Commandant I also mentioned very early in a Common letter of general communication to Mr Stoddert, and in another to Captain Tingey; and I wish you to write Tingey and see if he will not tell you that at my request he Showed it to Mr Sec^y Smith previous to My arrival at Washington in my way to Norfolk.

But what signifies this—It was evident to me on my arrival at Norfolk, that the object was to put me out of service—tho' they did not choose to do it in an off hand and manly manner, but to make the service disagreeable to me:

It is therefore to be judged from what I relate as follows, whether they did or did not make it disagreeable to me in any other Gentlemans mind, save my own. After I had received from the Sec^y of the Navy at Washington, a list of the officers officially made out and handed to me by him in Person. to viz—"A list of the officers of the U S Ship Chesapeake (Commodore Truxton) one of the Squadron &c

Hugh Campbell Captain.

Smith 1st Lieut." The list then goes on to mention the names of three other Lieutenants & a number of midshipmen &c &c.

I Say after I had received this list of officers I proceeded down to Norfolk with all possible expedition, and on my Arrival there found the frigate, with no officer but Lieut. Smith a young man and in a backward state at the wharf at Gosport.

I proceeded however to fit out and to get her stores on board—and in three weeks Completed this Object and at the same time had progressed considerably

in manning the ship which I got down immediately to Crany Island, being joined by another L^t and having provided the necessary warrant officers. A few days after I had the ship moored at Crany Island and ready for sea—all but the balance of her men which were entering fast—considering the state of the port as it respected the Number of seamen—I received a letter from M^r Sec^y Smith stating that Captain Campbell would not be able to go and that I must make a 3d Lieut to act from one of the midshipmen—without a word of any substitute for Campbell—or of any other Lieutenant coming on—few of the officers I had a list of having arrived. This letter astonished me and I begun then to be convinced that I had formed a right opinion of the intention of the Sec^y and in order to bring things to a point at once—I wrote him of my real situation and that I had reputation to lose, and of the little prospect of gaining any on the service I was going, but that as my reputation was very dear to me, I did not wish to risk it unsupported—that in fact sooner than go out unsupported, and that on a service far distant from home, I would sooner quit the service. He wrote me in reply that he had no captain to give me and that he was obliged to acquiesce; and had sent for Captain Morris to take my place. This is the substance of what passed and friends can judge from it whether there was any alternative left for me to act otherwise than I did or prostitute my honor and every feeling dear to an officer.

I will now proceed to explain what caused fear in you to conjecture. In the first moments almost of my tribulation from the Barbarous Treatment I received, and when my feelings were undergoing the most serious trial—every part of me being alive to the most cruel ingratitude and indignity: I received from Captain Tingey a letter dated the 25th day of March, which I do not even now understand, and perhaps never shall truly understand.

I wrote Tingey fully in reply, and received the letter of the 3d May which I sent you to read, and in which he promised a visit to Amboy—but did not come on, which prevented my having a talk with him on my affair. I did believe that Captain Tingey if he opened himself to anybody—would to you at Washington, on his opinion of the administrations Conduct towards me, and if it was as I feared, from circumstances—you would have been enabled to have judged how illy such conduct, and his letter to me of the 3d of May accorded: and that you would have then made me a friendly communication on the subject; for I repeat I do not like to give up an old acquaintance until I am satisfied he is unworthy of being longer considered an acquaintance.

I daily expect Mr Stoddert from New England and shall accompany him to Phil^a where I hope to be on Saturday night. Mrs Truxton Joins me in best Respects to Mrs. Dale: make my Comp. to Sam. Cooper also.

JOHN GAINES TO DALE.

GIBRALTAR 28th JUNE 1802.

DEAR SIR

I wrote you a few lines the 29th March last and since then p Capt. Barton when sent the Vine slips &c a [nd] which hope got safe to hand and that they will thrive. We are now rather in an unpleasant situation the Emperour of Morrocco having drawn the Vaile by ordering Consul Simpson out of the country in a state of warr (as they call it) he arrived the 25th Ju: and tells me said Emp: had published in his Publick audience that he had ordered his Cruisers to be fitted out against the Americans. You well know the Situation of this Gutt & how liable it is to calmes when his small Craft & Row Boats will anoy our Trade, some schooners like the Enterprise & Gun Boats as Tenders to the Cruising frigates, out of which they might be Mannd Occasionally and by making use of their Sweeps might Cooperate in anoying the Enemy, so as to protect our Trade. This being the case I beg a new of your goodness in Soliciting for me in addition to my Place as Consul of the U. S. that of their agent for U. S. Ships of Warr as in the present situation of affairs it probably might be worth attention, not doubting but that our friends Captains Barrons & Bainbridge will Contribute thereto if necessary, hoping you will Excuse the trouble. We have here the *Chesapeake* Comod^r Morris anxiously looking out for the *Adams* which realy is wanted as well as some other for[t]ies. The Tripolies Ship still in the Mole where they have orders to supply her with Materials if requested, so that they have in View to give the Ship if possible. Lord Keith is gone home. Sir Ja^s Saumerez just returned from the Evacuation of Mahon, he is to remain ad^l: on this station. The Duke of Kent our Gov^r: seems to be well disposed yet we have not that free access to his R^l Highness, as we had to Gen^l OHarra. My Sister & Bror. desire to be remembered to you, & with best respects to Mrs Dale remain always at your Commands.

Dear Sir

Your assd: hb. S.

JOHN GAINES.

RICH^d DALE Esq.

THOMAS TINGEY TO DALE.

WASHINGTON, 15th AUGUST 1802

MY DEAR DALE

I duly received your favor of the 8th and sincerely congratulate you on your return home, the pleasure of which gratulations would have been much heightened had you announced your perfect recovery. I thank you at the same time for your advice & desire of my benefit by those Springs. But my situation will not now admit, of leaving business either for sake of health or pleasure, nor know I whether my circumstances will ever again permit it.

I observe you saw M^r Law, at New York, who gave you some detail on the subject of our wet & dry docks here contemplated—and on not finding it detail'd in my letter also, say, I “keep all Snug on Navy Affairs.” When I wrote You my good friend the business had not commenc'd, I am not certain that it had been spoken of. What the result will be, I can scarcely conjecture, but have some tolerable hopes, that the appropriation will obtain to try the experiment. The President is himself quite sanguine on the Plan, and has repeatedly in large companies declared to me, that if the scheme proves successful, he shall be desirous, and would endeavor to effect the building of a line of Battle-Ship, or a large Frigate every year, until it may be judged that we had a force competent to any emergency. I was desired to effect a survey of heights of the heads of the streams, adjacent, and the necessary length of canals or aqueducts, to fill the Docks, as also the strength & quantity of water these streams will supply in a given time—this has been effected, and the result I conceive favorable to the design. I have to make my report* complete on the subject to lay before the President on his return from Monticello—the latter end of next month.

You will have heard of the intended outfit of the *General Greene*, under the command of Lieut. Chauncey. We had made some progress & were getting tolerably on, when the news of McNeals transactions in the Mediterranean arriv'd as also letters from Morocco, of not the most placid appearances there. A council of our ministers decided that instead of the *Greene* as a Store Ship—a ship of greater force & completely manned & arm'd should instantly proceed. The *New York* is pitch'd on & James Barron appointed to & accepted of the Command. The few men ship'd for the *Greene* & the officers on board, were ship'd [to the *New*] *York* yesterday afternoon and on the [Morrow] God Willing we shall commence our operations on her outfit. From appearances, discourses &c &c—I think you may count on a call into service 'ere the close of the year. We are here all in high health, and rejoice to hear your favorable reports as to the little danger attendant on the Sickness in Phila^{da}.

God preserve You and yours from all evil, prays Your affectionate friend.

THO^s TINGEY.

The household all desire their love to Good Dorothea & the lovely Boys.

Gifts worthy of mention were received from the following during the month: Hon. William A. Courtenay, his "Genesis of South Carolina, 1562-1670," privately printed at Columbia, 1907; from the Danish Rigsdagens Bureau, 8 volumes of parliamentary documents; from Mrs. Henry Draper, for the Cortlandt Palmer Memorial Fund, 3 volumes and 3 portfolios, including 2 volumes of N. P. Litchat-schoff's "Materialien zur Geschichte der Russischen Ikonen," St. Petersburg, 1906, "Œuvre de Lucas de Leyde, Reproduit et publié par Amand-Durand, Texte par George Duplessis," Paris, 1883, etc.; from Duffield & Co., a copy of "Plays of our forefathers and some of the traditions upon which they were founded," by Charles Mills Gayley, New York, 1907; from the London School of Tropical Medicine, 1 volume and 10 pamphlets, relating to the school, etc.; from Dr. S. Weir Mitchell, two privately printed volumes, "Old family letters," copied from the originals for Alexander Biddle, Series A," mainly letters from John Adams to Benjamin Rush, covering the period 1755-1813, and "Old family letters relating to the Yellow Fever, Series B," being letters written by Dr. Benjamin Rush, in Philadelphia, to his wife at Trenton, between August and November, 1793, printed at Philadelphia in 1892; from J. Pierpont Morgan, a copy of the "Catalogue of the Gutmann Collection of plate, now the property of J. Pierpont Morgan, Esq., by E. Alfred Jones," London, 1907; from the Netherlands Colonial Office, 5 volumes, relating mainly to the Dutch East Indies, including the second supplement to the Catalogue of the Colonial Office Library; from the New Jersey Adjutant General's Office, 14 volumes and 38 pamphlets, reports of the office; from the Mayor of Padua, 10 volumes, municipal documents; from the Province of Quebec, 2 volumes and 22 pamphlets, Journals, Returns, etc., in French and English; from Elihu Root, 18 volumes, a continuation of his gift relating to the United States Insular Possessions; and from the Province of Sassari, Italy, 7 volumes, documents of the Provincial Council.

The exhibitions of prints, etc., at the LENOX and ASTOR branches remained unchanged, the former including the C. S. Smith Japanese prints, contemporary German work, the French bookplates, The Century Company's print printing material, and the two richly illustrated folio volumes devoted to the mezzotints of John Raphael Smith and the Ward brothers; the ASTOR display consisted of plates from Williams' "Art of Writing" and of specimens of recent American engravings.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows: CHATHAM SQUARE, Kate Greenaway, Mother Goose; RIVINGTON STREET, Ships, Back to school; HUDSON PARK, Book covers, Edvard Grieg, The Mediterranean; TOMPKINS SQUARE, Birthdays of famous men and women born in September, Our navy, September; EPIPHANY, Pioneer days, Football stories, Sports and games; MUHLENBERG, Interesting events, Picture books; GEORGE BRUCE, Books about the navy; SACRED HEART, Louisa M. Alcott, 67TH STREET, Hiawatha, North American Indians, School again; RIVERSIDE, Augustus Saint Gaudens, Sea tales, Theatre; WEBSTER, Western life; YORKVILLE, Knightly tales; 96TH STREET, Out of doors in September, Tales of the West; BLOOMINGDALE, Pirate stories, List of picture books, Shells, Minerals, Animal stories; AGUILAR, Children going to school, James Fenimore Cooper; 125TH STREET, Stories about the sea, Labor, Bed-time stories; 135TH STREET, Nursery

rhymes and jingles; HAMILTON GRANGE, Busy little housekeepers, After vacation; MOTT HAVEN, Stories to read again; TREMONT, Books girls like, Books of games, Indians of North America, Alfred the Great, Erie Canal, Explorations of Lewis and Clarke, Knights of the Round Table, Miles Standish, Sir Walter Raleigh; STAPLETON, Richard Mansfield; TOTTEVILLE, North American geography, American government.

In addition there were bulletins on new books at six branches, on college and school stories at six branches, on Labor Day at two branches, and on Henry W. Longfellow at two branches.

A new building for the EPIPHANY branch was opened at 228 East 23d Street, on Friday, September 20, at 4 P.M. Alderman Reginald S. Doull received the building on behalf of the City and as representative of the Mayor, and Cleveland H. Dodge, Esq., made the address on behalf of the Trustees of the Library. Rev. Dr. Joseph H. McMahon and Mr. Arthur E. Bostwick also spoke. Music was furnished by the choir boys of Epiphany Church.

This building is the twenty-fourth of those erected from the Carnegie fund to be occupied as a branch of the New York Public Library. The Epiphany branch was opened as part of the Cathedral Free Circulating Library at 223 East 22d Street, on October 1, 1901, removed to 230 East 22d Street in April, 1902, received as a branch of the New York Public Library January 1, 1905. It has now on its shelves 11,000 volumes and its annual circulation is about 30,000.

REPORT OF THE DIRECTOR

FOR THE YEAR ENDING JUNE 30, 1907.

JULY 1, 1907.

Hon. JOHN BIGELOW,
President, New York Public Library.

SIR:

I have the honor to submit the following report of the work of this Library for the fiscal year ending June 30th, 1907.

Owing to the resolution of the Board adopted February 13, 1907, by which the fiscal year of the corporation was changed from the period July 1-June 30; to January 1-December 31, this report summarizes in brief terms the work of the Library staff for the period in question, leaving until January 1, 1908, the full report for the calendar year 1907 and for the eighteen months since July 1, 1906.

Philip Schuyler, a trustee of the New York Public Library since its formation, died suddenly on November 29th, 1906, as the result of a railway accident. His place on the board was filled by Edward W. Sheldon, chosen February 13, 1907.

GENERAL SUMMARY.

In the reference branches readers and visitors numbered 217,715; 182-678 desk applicants consulted 886,161 volumes. 35,865 volumes and 59,428 pamphlets were received; 25,720 volumes and 5,500 pamphlets were accessioned, making the total number thus recorded 710,232 volumes and 270,961 pamphlets, a total of 981,193 pieces in the Reference Department, which, with the 593,881 volumes in the Circulation Department, gives a total of 1,575,074 pieces in the whole system. The Print Department now contains 63,282 prints. There were catalogued 36,303 volumes and 25,489 pamphlets; the number of cards written was 92,130, of slips for the copying machine 26,634. Periodicals currently received number 6,229, readers of periodicals in the Astor Branch 32,522, and these readers called for 243,425 single numbers or pieces.

In the Circulation Department the number of branches has increased from 35 to 37, volumes in the Department from 565,482 to 593,881, circulation for home use from 4,752,628 to 5,090,555; 5 Carnegie branches have been opened (a total of 23); 1 is ready for opening, 7 have buildings under

way; no new sites have been secured, which leaves the number of sites available for, or occupied by, Carnegie branches, the same as a year ago, namely, 31.

NEW BUILDINGS.

Work on the new building has not made as satisfactory progress as might be desired. Roofing is completed, temporary windows installed, exterior marble work is completed, interior marble work is nearly finished, and work on contract no. 3 for the erection of the main structure almost at an end.

On contract no. 4, for the stack work, the housesmiths' strike was settled in July. All of the structural work for the main stack has been riveted and painted two coats; all stack partitions, ends, bottom shelves and shelf supports have been erected and painted one coat after erection, except the top story, which was left unpainted to allow the ceiling to be plastered.

On contract no. 5, for heating and ventilating apparatus, boilers and settings have been completed and connections made between boilers and piping, the latter practically completed. Ventilating ducts in cellar and walls are installed and work on those in the roofs is about half done. Mains and risers for the vacuum cleaning system are in place, and air piping for the thermostat system has been done as far as the condition of the building permits.

Contract no. 6, for plumbing, was advertised on February 11 and six bids were received on March 21. The bid of M. J. O'Brien for \$93,000 was lowest and the contract was awarded to him April 5. Work began on May 6, and by this time the floor drains have been installed in the engine room and the drain and supply piping in the south court.

The contract (no. 7) for the interior finish was advertised March 11, and seven bids were received on April 11. The contract was awarded to the John Peirce Company on April 19, its bid being \$3,133,000. Work will be begun at the building early in July.

Contract no. 8, for electric equipment, was advertised June 10, and ten bids were received on June 27, the bid of the Lord Electric Company, \$173,891, being the lowest. The contract will be awarded to that company at the meeting of the Board of Estimate and Apportionment on July 8.

REFERENCE DEPARTMENT.

To give relief to overcrowded shelves and overladen floors, we have packed away in boxes stored in the Astor basement 40,663 volumes and pamphlets. The material thus stored away will not be available for consul-

tation until we move into the new building. It comprises, in general, serial public documents issued before 1900, portions of little-used sections in Orientalia and Slavonica, bibliography and library economy, theological periodicals, missions, and various other theological groups. To provide for those portions of the Lenox collections that may be transferred to Astor if Lenox is closed in December we have gained 3,528 square feet of floor space by erecting platforms in Annexes A and B.

In the Astor and Lenox branches, readers and visitors numbered 217,715; 182,678 desk applicants consulted 886,161 volumes (corresponding figures for 1905/6 being 173,223 desk applicants and 778,652 volumes).

At the two reference branches the total number of desk applicants filling out slips for books was 182,678, and these readers called for 886,161 volumes, an average of 4.8 volumes per reader.

At Lenox the number of desk applicants was 13,587 and of volumes consulted 79,876, an average of 5.8 volumes per reader. Volumes consulted at Lenox formed 9 per cent. of the whole number used at both branches.

At Astor the number of desk applicants was 169,091 and of volumes consulted 806,285, an average of 4.7 volumes per reader. Volumes consulted at Astor formed 91 per cent. of the whole number used at both branches.

Astor day service numbered 148,765 desk applicants and 757,516 volumes, an average of 5 volumes per reader. Volumes consulted at Astor during the day formed 85 per cent. of those used at both branches and 94 per cent. of the total used at Astor.

Astor night service numbered 20,326 desk applicants and 48,769 volumes, an average of 2.4 volumes per reader. Volumes consulted at Astor during the evening formed 5.5 per cent. of the total used at both branches and 6 per cent. of Astor total service.

35,865 volumes and 59,428 pamphlets were received; 25,720 volumes and 5,500 pamphlets were accessioned, making the total number thus recorded 710,232 volumes and 270,961 pamphlets, a total of 981,193 pieces in the department, which, with the 593,881 volumes in the Circulation Department, gives a total of 1,575,074 pieces in the whole Library. The Print Department now contains 63,282 prints; as in former years little change has been made in the music, map, or manuscript departments.

There were catalogued 36,303 volumes and 25,489 pamphlets; the number of cards written was 92,130, of slips for the copying machine 26,634. Periodicals currently received amount to 6,229; readers of periodicals at the Astor Branch numbered 32,522 and these readers called for 243,425 single numbers or pieces.

CIRCULATION DEPARTMENT.

The Circulation Department now includes 37 branch libraries—an increase of two during the year. Five Carnegie buildings have been opened, three in Manhattan (WEBSTER, 58TH STREET, and HAMILTON GRANGE) and two in Richmond (ST. GEORGE and STAPLETON).

The number of volumes in the department is now 593,881. The circulation for the year is 5,090,555 volumes, an increase of 337,927 over last year. (Circulation in 1905/6 was 4,752,628, an increase of 1,061,128 over the year preceding.) Of this 337,927 increase 2,269 is the circulation of two libraries just established and the remainder represents the difference between an increase at 17 branches and a decrease at 19 others.

Five branch reading rooms are now open on Sunday afternoons and one (RIVINGTON Street) remains open on week-days until 10 P. M.

The Staff of the Department now includes 403 persons, an increase of 41 over last year, due largely to the establishment of new libraries and removal of old ones to larger buildings, but partly to the creation of additional positions.

Examinations to determine eligibility for promotion were held on May 14, 15 and 16, 1907, with the result that two persons were qualified for Class A, 21 for Class B, 16 for Class C, and 32 for Class D. Of the latter 24 were from the Training Class.

The Cataloguing force of the Department has classified 7,107 books during the year, written or typewritten 43,364 catalogue cards, made 88,228 entries in the union catalogue and shelf-list, and handled 59,353 Library of Congress cards, besides preparing the Monthly List and Annual List for publication, compiling special lists, and other detail work. Besides this 89,423 catalogue cards were written at branches.

Work with the schools has been extended to 390 educational institutions. To these 4,154 visits have been made, at about monthly intervals, by assistants assigned for the purpose. Special library bulletin boards are maintained in 219 schools and 8,426 notices have been posted. 73,366 copies of the Monthly List of Additions have been sent to teachers and 51 addresses explaining library facilities have been made at schools and conferences. Special study-cards issued to teachers during the year numbered 2,644. Teachers endorsed the applications of 22,509 children and 94,322 school children made use of the reference books in circulation branches. Books purchased at teachers' requests numbered 815 and those bought in connection with college and university courses, 488.

The children's rooms have been under the charge of an experienced supervisor since September 1st, 1906. Large numbers of books have been discarded and replaced, an instruction-class of assistants-in-charge of the rooms has been formed, and much has been done to systematize the work of administration. Since November 1st the supervisor has passed upon 75,000 book order slips, recommended 35,000 purchases, read 500 juvenile books and prepared a list of 2,500 standard titles. In the same period 42,113 children have been registered at the branches and 200 "story hours" have been held.

During the year the number of books for the blind has been increased from 2,204 to 2,768 and the number of pieces of music from 670 to 994. Notable additions have been made in Braille type, both American and foreign.

The work done through travelling libraries shows an increase in circulation of 270,416 volumes or about 57 per cent. The number of stations served has been 675, including 251 schools, 55 play-centres and playgrounds, 37 fire-engine houses, 13 Sunday Schools, 20 social settlements, 31 clubs of various kinds, and 97 home libraries.

The books requested through inter-branch loans numbered 27,494, of which 20,656 were secured and sent, involving 71,511 separate calls by messenger.

Three additional exhibitions have been added to the travelling series prepared by the Print Department and several to those in the wall cases.

Evening lectures under the auspices of the Board of Education have been given in the TOMPKINS SQUARE, TREMONT, 135TH STREET, AND HUDSON PARK Branches, and also in the reading room of the 96TH STREET Branch after the destruction by fire of the neighboring building of Public School 86 on March 4, 1907. These embraced three series of five to ten lectures each, one in the Autumn, one in the Winter, and one in the Spring, at each library. Use of assembly rooms in a number of branches was also granted to several associations for educational purposes, such as the Tuberculosis Exhibition and its accompanying lectures given at TOMPKINS SQUARE, 67TH STREET, 125TH STREET and HUDSON PARK.

The results of the inventories show a net loss from the shelves of 3,859 volumes during the year, as against 7,904 last year, a decrease of 4,045, or over one-half.

The meetings of the staff have been held as usual at various branches through the year and have furnished opportunity for profitable discussion of library problems and other topics of interest.

The department heads and other members of the staff have given faithful and earnest service and I take pleasure in calling attention to their loyal zeal and interest.

Very respectfully,

J. S. BILLINGS,
Director.

REPORT OF THE BRITISH BOARD OF TRADE AND
PLANTATIONS, DECEMBER, 1703.

Printed from a contemporary transcript made probably for the Earl of Bute in the middle eighteenth century; the Report dated 18 November, 1702, was printed from the same volume in the BULLETIN for May, 1906; besides the two reports for 1702 and 1703 the volume contains a report dated 30 November, 1704, of about the same length as that for 1703 and a report dated November, 1707, of over twice this length.

TO THE RIGHT HONOURABLE THE LORDS SPIRITUAL
AND TEMPORAL IN PARLIAMENT ASSEMBLED.

May it please your Lopps.

In obedience to your Lordships order of the 22, of november Last, requiering us to Lay before your Lordships ane account of the State of the Trade of this Kingdom, We humbly represent that by a like order of the 7th November 1702, We did Lay before your Lordships such several particulars in reference to Trade and Her majesties plantations (as they have a necessary dependance on each other) as had been for some time past, or were then, most especially under our consideration, the substance whereof as it may relate to what has been transacted by us, is as follows.

[Then follows a summary—1500 words—of the 1702 Report, which was printed in full in the BULLETIN for May 1906.]

Since which time we have Continued our care for the Encouragement of Trade and for the Safety and good government of the plantations in reference thereunto, as far as in us Lyes by corresponding constantly with the Several Governors, and in representing to Her maty what might be wanting for their preservation and defence.

Upon occasion of Letters received from Colonel Dudley Governor of the Massachusetts province in New England, We have represented that in pursuance of Her majesties Commission and Instructions Constituting him Captain General of all the forces, fforts, and places of Strength within the Colony of Rhode Island, a Charter Government in New England and of the Narraganset Country adjoining. He repaired thither attended with members of the Council of the Massachusetts-Bay and in presence of the Governor and seven of the Council of Rhode Island, He published Her Majesties said Commission as likewise his Commission under the Seal of the admiralty Constituting him vice admiral of the said Colonies, and of the ports and places thereunto belonging; Whereupon the Inhabitants showed little respect to Her majesties authority.

That when he acquainted them that he would proceed to review the militia and reform the defects of it, and in order thereunto Desired the names of their officers He met with an obstinate refusall and declaration that they would rather chuse to Loose all at once than by pieces as they Expressed themselves.

That he nevertheless Gave out warrands to the major of the cheif Town to muster the two Companies of militia there, intending to have administred the oaths to the officers But the major alleged that he was oblidged to observe the directions of the Governor and Council or of the General assembly of that Colony, and the said Governor and his Council Insisted that by their Charter the power of the militia was one Branch of the priviledges granted to them as a Body politic and intermixt with the power of Civil Government not regaurding what Colonel Dudley observed to them, Viz, That the militia is by act of Parliament vested in the Crown, and that it is Her majesties undoubted prerogative to dispose thereof as Her maty shall think fitt.

That the said people used their outmost Endeavours with the nighbouring Country of the Narragansets to oppose Her majesties Commission, and bring every thing there into Confusion.

That Rhode Island Consists of more than 2000 men fit to bear arms; That there are in it several persons of very good Estates, ability and Loyalty; But that the Quakers and their friends haveing got the sole power into their hands, would not admit such persons into any places of trust nor would those persons (as things now stand) take any part of the Government into their hands, expecting that the present misrule may cease, And that they shall be brought under Her majesties immediat Government, which the greater part of the people very much desyre.

Upon all which we Did Humbly represent to Her Majesty that this Colony being of importance to the Trade and navigation of England by its situation, ought to be secured by the best wayes and means against the attempt of an Enemy, to which they Lye Exposed. And we do not conceive how the same can be otherwise effectually done than by the Legislative power of this Kingdom, as we have intimated for other proprieties, without prejudice to the freehold and property of any particular person, Which we humbly offer to your Lordships consideration.

In the mean tyme we observe that in July 1694. The then Attorney and Solicitor General did report in the lyke case to His late Majesty That upon an Extraordinary Exigency happening Th[r]ough the default or neglect of a proprietor, or of those appointed by him, or though his or their Inability to protect or defend the province under their Government, and the inhabitants thereof in times of War, or imminent danger, His majesty might constitute a Governor of Such province or Colony as well for the Civil, as military part of the Government. And for the protection and preservation thereof and of his Subjects there, Which we take to be a case not differing from the present state of Majestys Colony of Rhode Island, And we did

therfor most humbly Submit it, whether it might not be for Her majestys Service and the Security of this Plantation dureing the War, That a Governor should be accordingly appointed by Her majesty, In which case we have humbly Represented that Her majestys Governor of the Massachusetts-Bay Being in the nighbourhood of Rhode Island might very properly Execute that Commission, as well for the Civil as military power

And whereas we humbly Instanced in our Last Report to your Lordships that we had prevailed with the proprietors of East and west new Jersey to Surrender their pretended Right to Government into Her majesties hands, We have since Continued our Endeavours of the lyke Kind towards others, by means whereof Mr. Penn has also been induced to propose a surrender of his Government of Pennsylvania, and has accordingly offered to us—proposals in the words following vizt

Proposals to the Lords Commissioners for Trade and Plantations about the Surrender of the Government of My Province of Pennsylvania

- 1st. That the Government of the province of Pennsylvania and Territories continue to be the same Distinct Government under the Crown that it hath allwayes been and now is.
- 2nd. That the Laws and Constitutions thereof be confirmed by the Queen except such few as I shall object against.
- 3rd. That a Patent pass to me and my Heirs for the three Lower Counties of Newcastle, Kent, and Sussex, called the Counties annexed, or Territories of Pennsylvania, according to a Grant begun by the late King James, and had been finished had he stayed one week Longer at Whytehall, as may appear by a bill drawn in Pursuance of his Warrant signed William Williams Attorney or solicitor General.
- 4th. Since my first Expedition Cost me £10500 and that my Government has stood in twice as much, and since that Government was the best part of the consideration I had from the Crown, haveing bought the Land of the natives over and over. And that the sole is only made of any value to me upon my own Interest, and their and my charge that engaged, and that from henceforward my Shop windowes will be shut down and my market over (my case and that of my province haveing peculiarities distinct from all others). The motive to treat being over by my Surrender of my Government and since that will disable me to pay the debts the whole has Contracted upon me and my Estate, by Loosing the benefit and the prospect of return the peoples Justice might afford me, and my posterity as their Governor; and since My Prosperity, as it is called and distinguished by an English Scale, while but a wild and uncultivated one, and never to be otherwayes but at my Cost, which is *nyntie nyne* parts in a Hundred besides the fall it will give to the present Settlements (that rise 50 per Cent on my Last arriveal there) and an abundance of seen and unforeseen prejudices that may follow to me and mine and those

Ingaged on my account, And that the Custome of Goods Imported here from thence Directly amounting from £1500 Since my arrival to £10000 per Annum to the Queen and by Circulation of our Trade by the hands in their Commodities hither to not less than as much more; which before it was mine never returned any thing. I hope it will not be thought hard that I ask Thirty thousand pounds paid, and one half the penny per pound upon Tobacco in the Country, as well of what sume or sumes the People shall give and grant the Governor for the time being for his Salary by my assistance.

- 5th. Having so great a Stake there and the inhabitants thereof, and to distinguish my Self and Family as the founders of the Country, That I and my Heirs Shall have power to present as often as a Governor is wanting Two or more persons to the Queen or King for the time being Qualified for that Station, for Her or Him to appoint and Commission one of them to be a Governor and vice adm^l thereof.

WM. PENN

18th fourth month

June 1703

Mr. Penn by these proposalls demanding not only a great sume of money, but in effect much Larger powers from Her majesty than what he offers to yeild, and lykewise a new and positive Grant of the three Lower Countys called Newcastle, Kent and Sussex, To which we do not find he has any good title, tho he has a long time Exercised the same authority there as in the province of Pennsylvania, We have esteemed such proposals very unreasonable, and thereupon pressed him to come to more moderate Terms. The uniting of this Colony lending very much to a due regulation of Trade and Settling a method of common defence in this time of War.

But in relation to the Exercise of his authority or of those deputed by him, in which respect all Proprietary Governors did for some time refuse to give that Security for their deputys which was required from them pursuant to the act of the 7th and 8th of his late majesty *ffor preventing ffrauds and Regulating abuses in the Plantation Trade*, and to the adress of your

Lordships thereupon, We have prevailed with him to give the Security required and a declaration under his hand that Her Majesties approbation should not be construed in any maner to diminish or Set a Syde Her Majesties Claime of Right to the three Lower Counties: Whereupon Her majesty was accordingly pleased to approve of Mr. John Evans nominated by him as Deputy Governor of Pennsylvania and the said Counties.

The lyke security has been required and taken for Sir Nathaniel Johnson Deputy Governor of Carolina, and for Mr. Edward Birtch Deputy Governor of the Bahama Islands which Colonys lye so very much exposed to the French and Spaniards, That without a due Regulation of Government under Her majesty and proper means of defence, We cannot but apprehend a sudden Loss of one or both of those Colonies, which would be in the highest maner detrimental to the Trade of this Kingdom.

In relation to the State of defence and Trade of Virginia and Maryland, haveing received an account from Colonel Nicholson Governor of Virginia, That the militia there was in a very ill Condition, as to arms and stores of War necessary for their defence, The particulars whereof he Represented

The Horse.....	2143
Dragoons	1985
Foot	4971
In all.....	9099

That there wanted for the Horse and Dragoons... 3000 cases of pistolls
And for Ditto..... 3500 Carabines
For the Foot..... 5000 Firelocks

For the horse Dragoons & foot 5000 Swords, besides powder and Shell; which particulars the Country ought to provyde at their own charge, But in regaurd of the great importance of that Colony to Her Majestys Revenue and the Trade of this Kingdom, and in consideration of the present conjuncture, and that such arms and stores Cannot be provyded in America, We humbly offered to Her Majesty that She would be pleased to order a sufficient quantity of arms and powder to be sent to the Governor and that he might be directed to require the assembly to reimburse the charge thereof and not to deliver any of them out, but upon absolute necessity: whereupon Her majesty was pleased to order that a Quantity of the said arms to the value of £3388 Should be sent, and that the said Sume should be repaid to the office of the ordinance out of the Quit Rents of that province. Directions were lykewise [given] to the Governor to take Care that Such of Said arms, as Should be Delyvered to the Inhabitants there, for the ordinary Service of the militia should be paid for, by the persons who received the same, and whereas the assembly had raised the sume of £420 Sterling for defraying the charge of takeing a pirate Ship, which was an Eminent and Extraordinary Service.

We humbly Represented that Her majesty would be pleased to gratifie

them in alloweing the deduction of that Summe out of the Reimbursement they were required to make as aforesaid Unto which we further added that it would very much conduce to Her majesty's Service if a Store Keeper were sent to that Colony, who might be accountable for such arms and ammunition, as Her majesty should think fitt to send from time to time and upon consideration of the forsaid ill state of the militia, We advised the Governour to Endeavour to get an act past there to oblige all masters to furnish their men servants with a Gun of 20 shillings value at the expiration of their terme of Servitude as was practised in the neighbouring province of Mary Land where the Governor of that province had informed us that the militia was well regulated and armed, magazines built for stores, and places for Rendezvous appointed for any occasion.

In relation to Convoys for those important Trades, We have several times heard the Tradeing thither, as lykewise divers planters and others who had been Inhabitants of those Colonies and settled the times most proper for their Convoys, And being informed by the said merchts that at least 80 ships were then (vizt in december 1702) lyeing in the Rivers of Virginia & Maryland; and that the lyke number would be ready to go out from the severall parts of this Kingdom in January following with the manufactures of England, for the present supply of those Colonys; We offered it as highly necessary that a Convoy of good Strength Should be appointed to Sail from the Downs by the End of January aforesaid, with directions that they should Call at the cheif ports between the Isle of Wight and the Lands End, for the merchants Ships bound to Virginia and Maryland, and that the said Convoy should be ordered to return from the Capes of Virginia by the 1st or 30th day of July at the furthest, bringing with them such merchant ships as should be then ready to saile: Whereupon it haveing been ordered that the Said Ships be Convoyed by two fourth Rates to be Joyned by two others from Vice admiral Bembows [*sic*] squadron then in the west Indies part of that fleet being lately arrived in the ports of England, We have understood that the Quantity of Tobacco then Imported into the ports of London from September 1702 to november 1703 amounted to 59036 hhds since which Another fleet being allso arrived, We are informed that the Quantity therein Shipt from Virginia and Mary Land for the port of London is 11440 hhds. But the quantitys arrived this year or yet expected at Whytehaven, Liverpool, Bristol, Briddiford, and other out ports, We have not receaved a particular account. Upon a general Calculation we esteem it may amount to one third of what we have mentioned to be imported into the port of London, so that the whole quantity may be about 93968 hhds.

It haveing been Represented to us by some merchants of London as necessary that another Convoy of good force should be sent to those parts about the beginning of July following with a fleet of Merchants Ships intended to Saile at that time, for the further supplyeing of those Colonies with those necessaries and bringing from thence the product of the year, We lykewise humbly reported such a Convoy to be requisite to saile at that

time, or at the latest about the beginning of august and to return from thence the beginning of aprile nixt, which Convoy might have directions either to remain in the Rivers of Virginia and Mary Land, or to be ordered to Cruise dureing the winter Season, off of Barbadoes and the Leward Islands, or else where within the Tropicks, for the Security of the Trade of those parts; and accordingly 2 fourth Rate ffrigats were appointed for that Service.

We have further Represented the necessity of a due care in makeing the lyke seasonable provision of Convoys for furnishing those Colonies with the manufactures of England and bringing away the product of those parts which without such encouragement for the safety of their Trade might be necessitated during the War to turn their industry from the planting of Tobacco (so beneficial to England) to the producing European manufactures.

Upon information that all the Ships of War which last sailed from Virginia, are ordered to come away with the Trade and none other appointed for that Station, We humbly offered that one of those intended thither should Remain there as a winter Guard, whatever Service the other might be ordered upon till the return of the fleet.

And in further relation to Convoys for those parts, haveing considered the ill consequences of ships comeing away from thence without Convoy Dureing this time of War, whereby many of them have been taken and other wayes exposed to great hazards, We humbly offered to Her majesty the draught of letters to the Governor of Virginia, and to the president and Council of Maryland, in the absence of the Governor strictly requireing them to take especial care that dureing this time of War no Ships do Saile from those Colonys otherwise than with Convoy, such only excepted as shall have particular Licence from Her maty or from His Royal highness the Lord high admiral to that effect.

And whereas the Government of Maryland became vacant by the return of Colonel Blakiston from thence, We prepared a Commission and Instructions for Colonel John Seymour appointed by Her Majesty to be Governor of that province, inserting therein such clauses as were proper for the Con-juncture who availed himself of the opportunity of those Convoys for the Transporting himself and family to that province.

We add upon this head, that some defects haveing been found in divers acts transmitted from Mary-Land relateing to the establishment of Religion and maintainance of ministers in that province, We prepared a new draught of a bill on that Subject in which we had the assistance of his Grace the Lord Arch Bishop of Canterbury, The Lord Bishop of London and their principal officers of the Crown, and accordingly Laid the said draught before his late Majestie who was graciously pleased, after haveing heard the Quakers in Behalf of their brethern in that province against the draught of the said Bill, as lykewise the reasons offered for the passing it, to Direct by Order of Council, that we should transmitt the Said draught to the Governor and Council of Maryland to be by them offered to the General assembly, In order

to the passing it Into an act in the usual maner, which act haveing been accordingly passed there, and received her majestys Royal approbation, was again transmitted to Mary Land, and has had as we are assured those good effects, which were proposed, and designed by that Law.

In Relation to Neu York we Lay before your Lordships, that the Lord Cornbury the present Governor has at Several times informed us as to the state of defence of the said province.

That the effort of the City of New York is in a very ill condition nothing having been Laid out upon it since Colonel ffletcher came from thence, The parapet being of sod worke is fallen down in many places most of the platforms and carriages decayed and useless, many of the Guns dismounted and Some of them honey comb'd so that they cannot be safely fired.

That the forts at Albany, Schenctad Canesligione and another upon Hudsons River called the Half-Moon were lykewise in a ruinous Condition.

His Lordship is therefor Building a new fort at Albany and designs to put the other forts into a better state of repair, which we hope is now done.

That very few of the Stores which he found at New Yorke and at Albany were fitt for Service.

His Lordship desyred that the 4 foot Company in that province which ought to Consist of 400 private Soldiers besides Officers may be recruited, those Companys wanting many of their Complement. That musquets, Bayonets, Swords, and other accoutrements should be sent them, without which those Companies were not fitt for Service.

That the militia of the province was in a very ill state, haveing not been drawn out or Exercised for many years Last past.

That in consideration of the great Charge necessary for Carrying on the fortifications, and the province being much in debt; His Lordship further prayed that Her majesty would be pleased to direct, that he might have some assistance from home for the performance of that Service, He lyke-wise transmitted to us a List of great Guns, smal arms and Stores, which he thought requisite for the defence of the province.

As for the State of the Civil Government, His Lordship informed us, that he found things in great disorder, The animosities between parties were very high, and at the time of his arrival the administration of the Government being cheifly in the hands of unfitt and mean persons they had oppressed the cheif and most wealthy Inhabitants and brought all to great Extremities which appeared by many addresses presented to his Lordship from all parts in this his Government for releif, and by the Condemnation of two considerable merchants there Sentenced to be Execute as guilty of high Treason, whereas their Crimes only appeared to be that they had prepared a petition to the late King, The parliament of England, and the Lord Cornbury, Setting furth the greivances they had Lain under.

In reference to the five nations of Indians bordering upon New York, His Lopp gave us ane account of a Conference he has had with their cheif Sachems at Albany, where he made them presents as usual in order to

Confirm them in their Submission to Her majesty, which tho a considerable Charge, His Lordship Judged absolutely necessary to be continued, Lest the intreagues of the French of Canada, and the influence of their preists who frequently converse and often Inhabit with those Indians, should Debauch them from their alledgiance to Her Majesty.

Upon all which particulars, We took Leave to Lay before Her majesty.

That as to the forts and fortifications his Lordship might be ordered to use his best Endavour with the assembly to Dispose them to make Suteable provision for repairing the old, and Erecting Such new fortifications as should be Judged necessary, which together with tne Quota's of the nighbouring plantations, wherein Her majesty might be pleased to renew Her directions, might be applyed towards that work: Both which were accordingly done.

And as his Lordship represents the province to be in such a state as necessarily to require assistance from hence, we humbly Laid the Same before Her majesty.

As to stores and materials of War, His Lordship haveing transmitted a List in which he desyred 60 pieces of Canon, a Thousand fire Locks and 200 Barrills of powder, We offered that in case those quantities might not at this time be so conveniently spared, one third part of the Canon, and one half of the fire locks, Pouder and other stores desired should be now sent.

Which proposals haveing been referred to the principal officers of the ordnance to an Estimate of the Charge thereof, They did accordingly make an Estimate of the whole amounting to £5568, but withall objected against their Supplying the Same; for that no provision had been made, for it by parliament, and that their office had already been much Exhausted by Stores Sent to the plantations, which they Suppose ought to have been defrayed from thence which we conceive to be very difficult to be obtained, if possible, the product of those Countries being sent to England, and the Customes which arise from thence being received here, which Disables them from undertakeing all the necessary fortifications at their oun Charge, and furnishing themselves at the same time with stores of War sufficient for their defence, as they are a Barrier to the other plantations against the ffrench and their Indians.

In relation to the recruits demanded by his Lordship for the 4 Companies We offered to Her majesty, that we found by the amounts Laid before us, that besides what is due from the Executors of the Earl of Bellomont, there was remaining in the hands of Capt. Nanfan late Lieutenant Governor of New York the sume of £510 for Respits from the 9th March 1700 untill the 8th may 1702 and in the Lord Cornbury hands £238 for Respits from the 9th may 1702 until the 24th december following, whereof a particular amount might be made up in the Pay office, which Respits, we humbly proposed, might be applyed towards Recruiting the said Companies and together with what Should appear to be further due from the Pay-office upon the Clearings of those Companies (which we Judged to be very

requisite) might be employed, So far furth as the same was applycable to that Service, towards provydeing arms, accoutrements and other necessities they stood in need of, which we are informed is now in away of being settled accordingly.

As to the Civil Government of the province and the unhappy divisions among the people, We humbly reported, That haveing Recommended to his Lordship as well as to former Governor the Endeavouring to Reconceal all parties, He did assure us that he had accordingly applyed himself to that work, and would continue to do so, without Espousing partie further than Her majesties Service, and the Rules of Justice did oblige him.

As to our freind Indians, We were humbly of opinion that the usual method of ingaging them by presents Should be continued and especially as any Extraordinary occasion might require, And we further took leave to observe that another means to prevent the influence of the ffrrench Missionaries upon them, and thereby more effectually to secure their fidelity, would be that two protestant ministers be appointed with a Competent allowance to dwell amongst them, In order to instruct them in the true Religion and Confirm them in their duty to Her majesty which his Grace The Arch Bishop of Canterbury did undertake to provyde.

In relation to the State of defence and the Civil Government and methods of Trade in the Massachusets Bay, Newhampshire, and the adjacent parts, according to Several informations, received from Colonel Dudley, Her majestys Governor, We have represented

That in Newhampshire from whence the best masts and other naval Stores are brought, There is but one fortification situated at a place called New Castle at the Entrance of Piscataway River, That in the fort, there are 31 Guns mounted, that the Cariages and platforms being defective, Colonel Dudley hoped he might Induce the Inhabitants to repair them, But reports the*province unable (by reason of their poverty) to be at the Charge of all Such other reparations and works as are necessary for the defence of that Country.

That as to the Massachusets-Bay and the province of Main, which is united to that Government, the Eastern parts thereof being most Exposed to the ffrrench, He had travelled through all that Country, and renewed the English friendship with the Indians as far as St Croixe But was still apprehensive of their defection by reason of the ffrrench preists that are among them.

That in the same journey he had received the remains of the Fort at pemaquid (a place of great importance for the Security of the Eastern frontiers of new England) which was taken from them by the ffrrench in the late War and demolished. And that as he had been directed by Her Majesty to use his outmost Endeavours to promote the Rebuilding of that fort, he had in order thereunto taken with him workmen and Surveyors, who were of opinion that the repair of the Stone work alone Could not be perfected under £7000 And that the Lodgeings and furnishing within for

the Receipt of men and stores would require near as much more, besides 20 peices of ordinance to be put into it: He adds that the maintainance of 100 men for the defence of that fort, according to the method of payment and the Establishment of that Country (which is 2 sh p Day) Together with Incidental Charges will amount to near £5000 p annum.

That he had used his endeavours to persuade the Council and assembly to raise a fund for the repairing and puting the said ffort into a State of defence, And that haveing prevail'd with the Council to Concurr with him in that manner. The assembly has refus'd to do it.

Upon the consideration of the General necessities of the province & their Incapacity to sustain the whole Charge of the War on all their fronteirs, He proposes that Cannon and other stores of War formerly Desyred may be sent from hence, which Colonel Ramer the Cheif Engineer there did particularize as followes, vizt

Cannon from 24l. to 18l. Ball.....	50
Mortars Granadoes & Bullets in proportion.....	2
Hand Granadoes (with their Fuzees).....	4000
Fire arms.....	600
Heads for half pikes.....	400

As lykewise two master Guners and one Bombardier. And as argument to inforce the reasonableness of these demands, He wrytes that he had been Informed the French have a Garrison of 400 men in Port Royal in Nova Scotia bordering on New England, and did expect more, who in Conjunction with their Indians (of whom they had 200 Listed Cloathed and armed, and many others ready to joyn them) would be able to Insult all the Island ffronteirs of that province, as has since happened.

Upon the consideration of the growing State of port Royal before mentioned, the cheif french Settlement in nova Scotia, He proposes that Her majesty would be pleased to Direct 3 or 4 men of war to call there, adding that with the assistance of Some of the people of New England for the Land part they might be able to destroy the enemies Settlement and delyver Her majes Territories from so dangerous a nighbourhood, But in case this be not resolved, He insists however that (besydes the Cannon and Stores of War Before mentioned) a fourth Rate frigate may be added to the fifth Rate, which was then attending Her majesties service in those parts with which (if no greater force of Shipping be sent him) he hopes to do some considerable Service; The people of New England Commissioned by him, haveing been very successful in their undertakeings at Sea against the french.

That upon intimation of an Invasion intended by the french and Indians by Land He had prevailed with the assembly to agree to an act for Listing every fourth man in the province to the ready armed and Cloathed fit for a march in 24 hours.

In relation to the Civil Government of the province all the Counsellors

and other officers being Chosen annually by the assembly and depending wholly upon the people for their Subsistance, He represents the Same as very inconvenient and inconsistent with Her majesties Service.

And particularly as to Trade, He Setts furth the great difficulty of effecting any Strict observation of the acts of Trade amongst the Inhabitants of that province not only from their own disposition, and the popular constitution of their Government by Charter, But also from their constant intercourse with the nighbouring Colony of Rhode Island, who under the same pretence of Independant Government permitt the Landing of any goods there without payeing any duties or Submitting to the Regulations of Trade, or the acts of navigation.

That the Irregularities in the Independant Government of Rhode Island, are a Continual obstruction in the reformation of many abuses in Trade; and otherwise in the Massachusets Bay, and Instances particularly that 2 privateers fited out from Boston and Commissioned by himself haveing taken a large Spanish Ship valued at about £5000 did not return to their Commission port as they ought to have done, but carryed the prize into Rhode Island as a place where they might Compass their sinister designs and that hē Could not obtain her being brought to Boston, tho Rhode Island be under that admiralty, and that he apprehended that the Ship and goods would be Imbezeled in that Lawless Colony.

As to the fortifications we are informed by him that the assembly of the Massachusets Bay had Levied the Sume of £5000 for building the Castle in Boston Harbour And that the same would be soon perfected and thereupon intimates the want of Cannon for the fortification when finished.

That the Council of the Massachusets Bay haveing with some difficulty been perswaded to consent to the Rebuilding of the fort at Pemaquid, the assembly nevertheless had again refused to contribute towards that work, tho' they had been often required to do it, and did not show any disposition to obey Her majesties Commands in this matter, nor in the Settleing of a Salary for the Governor and other officers Depending upon the powers of their Charters, which Emboldened them so far as to have litle regaurd for Her majesties Command.

Upon all which We humbly offered to Her majesty.

That in relation to New Hampshire Her majesty would be pleased to reinforce the Several orders formerly given, that the assembly be urged in the most pressing maner to do their outmost for their own preservation and particularly in keeping the Fort at piscataway in good repair and in a State of defence, To which Charge we humbly conceived that the assembly of the Massachusets Bay might in lyke manner be exhorted to contribute, They being interested in the Security of that nighbouring place, as a frontire, and inlett to their Country, which we have frequently signified to them by letters as a duty incumbent on that Colony, and for the Encouragement of the people of Newhampshire (which is a smal province, but very considerable on the account of naval stores) We humbly proposed that 50

Barrills of Pouder and 100 smal arms with the appurtenances be sent thither and that Her majesty would allso be pleased to assure them of Her Royal care and protection as there may be further occasion.

That as to the Massachusetts-Bay Her majesty would lykewise be pleased to reinforce the orders formerly sent, Requiring the assembly to Exert their outmost Endeavours in provydeing for their own preservation particularly in building the fort at Pemaquid, and furnishing their other fortifications and stores with necessaries, And we humbly offered that for their Encouragement and part of their demands Her majesty would be pleased at present to direct that 20 peices of Cannon and 2 mortars with Bullets & Shells proportionable be sent thither.

Lastly as to the Inconveniencies ariseing in the Massachusetts-Bay from the want of power in Her majestys Governor, The irregularities in the Trade in that province as allso in Rhode Island, We have again offered what we had frequently Laid before Her majesty, and both Houses of parliament relateing to independant Governments in america, and the mischeifs ariseing thereby to the Trade of this Kingdom; And haveing been directed to prepare the draughts of Letters proposed to be sent, The same were prepared and sent accordingly.

Colonel Dudley in letters very Lately received gives us a further account that the Eastern Indians in Conjunction with the ffrench had made an Incursion into our Territories and carried away about 100 persons; That he had raised 1000 men for the Subsistence of which he had so far prevailed with the assembly that they had already granted £11500; That he had ordered Colonel Romer Her majesties Engineer in those parts to repair and enlarge a fort in Casco-Bay, the want of a fort more northerly at Pemaquid or thereabouts (which we frequently represented ought to have been taken care of by the assembly of the province) haveing facilitated this inroad of the Indians.

He adds, that he is makeing such other provision as may best tend to the Security of those parts, That upon this occasion he wrote to the two neighbouring Charter Governments of Connecticat Colony and Rhode Island, that they s[h]ould furnish 150 men, which he thought a reasonable proportion for them, But that they absolutely refused to Comply with that proposal tho their security does depend upon the safety of the Massachusetts Colony.

As to Newhampshire haveing understood that William Partridge Esquire the late Lieutenant Governor of that province had upon Several occasions neglected to parsue his Instructions, and being a merchant known to Carry on a Trade to fforeign parts, and particularly of Timber and naval stores to portugal, which we Conceive improper for a Governor to do, since he may thereby direct or monopolize the Course of Legal & fair Trade, We humbly offered to Her majesty our opinion, that he might be removed, and that John Usher Esquire formerly Lieutenant Governor of that province, Did appear to us a person well qualified for the discharge of that trust in the place of the said Partridge.

Which her majesty haveing been pleased accordingly to order, the necessary Instructions were prepared for the said Usher in that Government and more particularly in relation to the Contest between the person claiming the Propriety of that Province and the inhabitants which have been long depending.

As to Jamaica, Haveing received great Complaints from thence of the ill Condition of the forces arrived there from Ireland as lykewise of those sent thither from New England, and of the assembly's unwillingness to make due provisions for their reception and accomodations; And the officers of the 2 Regiments haveing lykewise prayed Her majestys Consideration of the hardships put upon them by a late act of assembly we have humbly Represented the whole matter and offered that for the remedy of those Inconveniencies, Barracks be built therein proper places, within [which] (as in the Kingdom of Ireland) the officers and Soldiers may be lodged under the lyke or Such other regulations as may be proposed, which will not only be a great Ease to the inhabitants of that Isleand But keep those forces which are now too much dispersed in a greater readiness for Service. And whereas the provisions which the officers and soldiers are now forced to purchase at dear Rates, by the Exactions made upon them, may be more easiely supplied from Carolina, and Her majesties more northern plantations, in case an agent be appointed for victualling of them at the best Rates, whilst they Shall be thus Lodged in Barracks, We humbly proposed that Such an officer may be appointed for purchasing such provisions Keeping them in stores, and delyvering them out to the officers and soldiers at the Cheapest Rates, for which so much of their English subsistance as is necessary may be retained and deducted, as allso so much of the allowance made them by the Inhabitants as shall not be applyed towards the Building and maintaining of Barracks, the perfecting of which good work, We humbly offered that Her majesty would be pleased to recomend to the assembly of that Island, humbly conceiving that by this method her Majesties forces will be no longer burdensome to the Island, their discipline and health will be better preserved, the Service better Carryed on, and the Cheif occasion of the Soldiers unwillingness to serve in the plantations in a great maner removed; which was further Committed to Her Majestys Consideration for Her additional assistance & Encouragement.

In further relation to the sd Isleand We humbly Represented that the Inhabitants haveing frequently Complained of great Irregularities Committed by the Commanders of Her majesties Ships of War, in Impresting not only seamen but Landmen, contrary to Her majesties express directions in that behalf and thereby freighting and Causeing many families to desert the Isleand. The assembly Endeavouring to present this mischeif fell into the contrary Extream, and Enacted that if any person whatsoever (without exception) Should presume to Imprest any man, that is or shall be an Inhabitant of the Island, He should be lyable to very severe penalties therein exprest: which we Conceived to be Derogatory to Her Majestys Royal

prerogative, prejudicial to the publick Service, and might Endanger the Ships of War in exigencies where Seamen might be wanted, We have therefor Humbly represented that the act should be Repealed and Strict orders Renewed for investing the sole power of Impresting Seamen in the respective Governors of that, and of each of Her majestys plantations, as vice admirals to his Royal Highness.

And whereas the assembly of that Island had fallen into differences with the Lieutenant Governor and Councill, and into Heats and Disorders amongst themselves, so that seven of their number being at once Expelled the House, there did not remain a Quorum Sufficient, according to the Rules of that House for passing any Bill the third time, The business lyeing before them had been neglected, and no due Care taken for renewing the body of their Laws, and particularly of the act of the Revenue, which is near Expyring; We humbly proposed that Her maty would be pleased to signifie Her pleasure to the Lieutenant Governor and Councill that they Should Lay aside their private animosities and pursue the publick business with diligence and moderation, & accordingly her majesty has been pleased to give directions in these points.

We have lykewise heard several merchants and planters Concerned in the Trade of Jamaica and have considered divers letters received from the Lieutenant Governor of that Island together with the minuts of the Councill and assembly there, Relateing to an act passed in that Island, ffor Establishing Kingston as the Cheif port instead of port Royal destroyed by fire: ffinding several great objections to the said act we have not thought fitt to present the Same to Her Majesty for Her Royal assent, but are in dayly expectation of another act to be passed there which may amend the Inconveniencies of the former. We understand that a Bill to that Effect was brought into the assembly there at the coming away of the Last Ships.

As to the Security of Trade from the northern plantations with provisions to the Caribbee Islands &c.

Upon Repeated Intelligence from these and other Her majestys plantations that the french have greatly encreased the number of their privateers in the Charibbee Islands and do intercept our Ships Tradeing to those parts with provisions from our northern plantations; Upon which we humbly offered to Her majesty as we had done formerly to His Royal highness, that her majesties Governors of New England and New York might be directed to send the Ships of War attending those Colonies towards the winter Season as Convoys with the Ships Trading with provisions and other Commodities between the northern and Southern plantations, and because such a yearly Convoy would not suffice Considering the number of provision Ships sent from the northern plantations, and the different Seasons of their sailing; We further humbly offered that besides the Said Convoy to be settled for the Beginning of the winter another Convoy be appointed to Sail from England in the month of february, so as to be ready at New York or some other of the northern plantations, by the month of apprile, To Convoy

from thence the Shipping of those plantations, which shall be ready to Sail at that time to the Southward, and that the times when each of these Convoys shall be appointed to Sail be signified to the Severall Governors of the northern plantations to be by them made known to whom it may concern, that the Shipping may accordingly be ready; the Convenience of which Convoy sailing from England the merchants ships bound from home to the northern plantations will lykewise take; and a double advantage accrue in the Security of trade

And whereas we have been allso informed that whilst in pursuance of Her majestys Declaration of War with the french and Spanyards her majestys Subjects in strict observation thereof do forbear to Carry on that private Correspondence and Commerce which they formerly had with the Spanish Nation in America, and are hereby deprived of Considerable advantages, The Dutch with a different regaurd to their Intrest do Contrive by all wayes and means to ingage the Spaniards in those parts to a Commerce with them, and for the better Ingratiating themselves with that people have Called in their privateers and Enjoy a free and open Trade with the Spaniards there far greater than ever, which gives very great discouragement to Her majestys Subjects and occasions their Carrying the severall commodities of the plantations (Contrary to the acts of Trade) to the Dutch to be vended by them to the Spaniard or Carryed to Europe, for which Her majestys Subjects receive in Exchange from the Dutch, commodities of the Grouth of Europe which Inconveniencè doth lykewise happen between Her majestys plantations and the Dainish Colony of St Thomas; ffor the prevention whereof we humbly offered that effectuall orders be given by the Commissioners of the Customes to their under officers in the plantations (and more particularly in the propriety and Charter Governments where the acts of Trade and navigation are least regaurded) that they do more strictly inspect the Importation and Exportation of all goods there and take care that Sufficient bonds and Security be given for the due observation of those acts in reference to Trade with foreigners and that an exact account be given by the Said officers and by Her majesties Governors as far as in them Lyes, of all Trade Carryed on with Curascas on the Island of Saint Thomas.

And whereas it has been found by long Experience that the Irritating the Spainards by private accounts upon the Land in America has only tended to the loss of a Considerable Trade without any real advantage to Her majesties Subjects, and is the present cause of turning that Trade into the hands of our neighbours: We further humbly offered, that such measures might be taken herein, as to Her majesties great wisdome Should seem meet, So that Her majesties Subjects be not Excluded from an Equal advantage of Trade with others in those parts.

In relation to the Island of Barbadoes and the Trade there, Her majesty haveing been pleased to Disallowe of an act past by the assembly of that Island Entituled *An act for the better securcing the Liberty of Her Subjects within the said Island and preventing long Imprisonments*, as containing

divers Imperfections and unpresidented clauses, and thereupon to direct that for the Satisfaction of the Inhabitants of the Said Island. Instructions Should be given by her maty to the Governor as might in the best maner secure the Liberty and property of Her Subjects there, and prevent any hardships by Long and unreasonable Imprisonment in the Said Island, and that the Said Instructions Should be made publict by the said Governor and be registered in the Councill books of that Island, We did prepare the necessary Clauses for that end, which were accordingly Inserted in the Instructions Given Sr. Bevill Granville upon his nommation to that Government, in as full and ample maner as was desyred.

Upon an address of the Late House of Commons of 23 march 1701 What the duty of $4\frac{1}{2}$ P Cent in Barbadoes and the Leeward Islands, subject to an annuity payable to the Heirs and assignes of the Earle of Kinoule, might be applied for the repairing and Erecting fortifications and for such other publict uses for the Safety of the Said Islands, as Her Majesty Should direct, We humbly reported to Her Majesty

That in the year 1663 & 1664 Several acts were passed in the Island of Barbadoes and the Leeward Islands for raising a Duty of $4\frac{1}{2}$ P Cent upon all Dead Commodities Exported, from thence which was in consideration of an auknouledgement of 40 lb of Cotton per head, and all other Dutys Rents and arrears of Rents Due to the proprietor and for quietting the possessions of the Inhabitants of those Islands, And for a full Confirmation of their Estates and Tenures and for holding their Several plantations to them and their Heirs for ever in free and Common Soccage, and in Consideration allso of the great Charges necessary for mantaining the Honor and Dignity of his majestys authority there the publict meetings of the Sessions, the often attendance of the Councill, the Reparations of the forts and other publict charges incumbent on the Government, which duty or Impost was Granted to King Charles the 2d his heirs and Successors for ever and has been from that time let to farm or managed by the Commissioners of the Customes here, under the direction of the Treasury, and as we understand has *communibus annis* amounted in Barbadoes to about £10000 Sterling, and in the Leeward Islands to about £3000 Sterling per annum.

We thereupon Humbly represented to Her majesty that by a report of the 24th of January 1701, We Laid before his late Majesty the present state of Barbadoes in relation to its defence upon the Information we had received on that Subject from the Lord Gray and the agents of the Island By which it did appear that upon a Strict Survey of the fortifications by his Lordship and Commissioners appointed for that purpose he found (in 29 forts and Batteries) 308 Guns of Several Sorts, whereof 58 only were Serviceable, and that most of the forts and Batteries were out of repair, upon which his Lordship (having also consulted with the most Experienced inhabitants of the Island) offered his opinion that Such of the forts and Batteries, as may be most usefull be furthwith Repaired, and that there be

sent thither at least 100 Great Guns of 12 foot long together with a Suteable proportion of Shott and all other ordnance stores needfull for them, adding that there was a want of small arms and Shot; whereupon we humbly repeated our opinion That Such a number of great Guns as Her majesty might think convenient; together with a quantity of Small arms and ammunition, the particulars whereof (as we received them from the agents were 1200 ffuzills Slung 600 pair of Horse pistolls with holsters 600 Horsemen Swords 600 Belts 200 Musketoons and a Suteable proportion of Bullets, ffints and Cartouch boxes for the fire arms, should be speedily sent thither, and gave our opinion that the duty of $4\frac{1}{2}$ per Cent arseing there is chargeable towards his Expence.

The said agents proposeing also in a mem. Delyvered to us, that the present forts and fortifications be furthwith repaired, We humbly offered that the same might be done under the Direction of the Commissioners to be appointed by the Governor and Councill there, and that an able Engineer might be sent from hence Together with Some Experienced Gunners, as Lykewise that magazines should be built for the better preservation of Pouder and other ordnance Stores for which we humbly offered that Her majesty would be pleased to allow a Competent Sum out of the Said Duty.

As to the State of defence in the Leeward Islands, Haveing been informed by Colonel Cordington the Governor in Cheif there, That at St. Christophers upon a ffort at Cleverly point there were 20 Guns mounted, Twelve upon another fort at Brimston Hill, and six upon a small plat form, And that there were 30 peices of Cannon brought out of the ffrench part of that Island which he had directed should be furthwith mounted and placed, We were of opinion by the best Informations we had received that that Quantity of artillery was for the present Sufficient.

As to Antego The Said Governor proposed the Sending 20 long Sakers which might Serve as well against the Indians as any other Enemy and 12 Guns for small fort Designed to be built at Parham, and a new plat form in another place frequented by privateers in time of War, and by unlawfull Traders in time of peace. He desyred Small arms as much wanted and Complained that the Small arms Sent to those Islands from the Tower were Slight and of no Service.

At Nevis he Represented the want of new Carriages for the Guns, and desyred further 4 long Sakers, 6 Guns, 12 pounders and 6 18 pounders, with a Sufficient quantity of Shott for them, and 500 Saker Shot for the Guns allready in the fort and plat forms, together with 20 Barrills of Cannon pouder, and 600 firelocks haveing been lately sent to this Island for as many match locks returned from thence. We were of opinion that upon the receipt thereof they will be sufficiently [furnished] with Small arms for the present.

Upon all which we humbly offered that such part of this duty of $4\frac{1}{2}$ per Cent as Her Majesty Should Direct might be applyed towards the Supply of those Demands, which was agreeable to the adress of the House of Comons in that behalf.

And upon the whole we further humbly proposed that Her Majesty would be pleased to Send Her Royall letters to the Governors of Barbadoes and of the Leeward Islands to use their best Endeavours to incline those assemblys to continue the publick Levys for the more effectual carrying on and Compleating the Services above mentioned, and others Conducing to the Safety of those Islands; Whereupon draughts of letters were accordingly prepared by us, Signed by Her majesty and Dispatched to those parts and upon a Computation of the money arising here from that Duty, the value of 3500*£* was sent to the Island of Barbadoes in such particular Stores and other necessarys as the agents of that Island Represented to us to be most necessary, as lykewise the value of 2000*£* in proper Stores to the Leeward Islands.

We have not had any account from Colonel Codrington Governor of the Leeward Islands since his Expedition against Guardaloue, which he Excuses upon the account of the ill State of health under which he has Laboured for some time past, But we have discoursed with a person lately Sent from those Islands, and again Represented the hazards to which these Colonys are Exposed by the great number of french privateers upon those Coasts, And that a protection, by Ships of War is absolutely necessary to the safety of that Trade.

And whereas in the Course of our business we had observed that the Governors of Her majestys plantations receiving presents from the Generall assemblies was of ill Consequence, as well because those Governments were thereby rendered precarious and dependant, as that the persons by whom such presents are made might frequently have Causes depending before the Governor, ffor the obviating this Evill, and that the Governors should be Enabled by Sufficient Salaries to Support the Dignity of their respective Governments without Such presents, We humbly Represented to her Maty.

That out of the duty of 4½ per Cent in Barbadoes there had been hitherto assigned 1200 lb Sterling per annum Salary to the Governors of that Island, But that some haveing been judged not Sufficient for their Support, they had been permitted from time to time to receive presents from the assemblies, and considerable Sumes have accordingly been raised by publick Leveys, ffor the preventing of which practice, We humbly proposed that Her Majesty would be pleased to add the sum of 800*£* Sterling per annum out of the Said Duty of 4½ per Cent to the then Salary of the Governor of that Island which by Such addition would amount to 2000*£* Sterling, which we hoped might be a Compefent maintainance for that Governor.

And we humbly offered that upon the Establishment of £2000 per annum as aforsaid Her majesty would signifye Her Express pleasure that no Governor Lieut Governor, Commander in Cheif, or president of the Council of Barbadoes for the time being should thereafter receive any gift or present from the assembly, and lykewise that no assembly Should make any Such gift or present to him, or any of them, upon any account whatsoever Except

only that there being then no House appointed or set apart for the Governor and it haveing been customary for the assemblys to make a temporary assignment of a house or Rent for the same, out of the publick Levyes, Her Majesty might be graciously pleased to permit the assemblye to assigne such a house or Rent for the same, not exceeding three hundered pound sterling per annum out of the publick Levyes, and to allow the Governor to accept thereof (notwithstanding what had been offered untill a House should be built for him; Provyded allwayes that this Should be done at the first Session of the Assemblye after such Governors arrivall, or receipt of her majesties order in this behalf and that it should be assigned him for the whole time of his Government.

And we Did thereupon humbly observe that the aforesaid increase of Salary being Supplied by Her Majesty out of the duty of $4\frac{1}{2}$ per Cent, The assembly of Barbadoes (and other assemblyes in the Charibbee Islands) would have an opportunity and be in a Condition of applyeing those large Sums, which they usually Gave in presents by yearly Levyes to their Governors towards such other publick uses as might be most necessary for the defence and Safety of those plantations; And we humbly conceived that in consideration of Her majesties goodness in exempting them from this Customary burthen of presents, They might be the more easily induced to Contribute in Such other maner to their own preservation.

As to the Government of the Leeward Islands, we lykewise Represented to Her majesty that the Salary of the Governor in Cheif arrising out of the Said Duty of $4\frac{1}{2}$ per Cent there; being no more than 700£ Sterling, The insufficiency thereof had been the reason (as in Barbadoes) that the Governors had been permitted to receive presents from the assemblyes of those Islands, We therefore humbly proposed that Her maty would be pleased to add the Sum of 500£ sterling per annu. out of the said Duty of $4\frac{1}{2}$ per Cent there to the Salary of the Governor in Cheif, which by that addition amounting to 1200£ Sterling might be a Competent mantainance for him.

And whereas besides the Governor in Cheif of all the Leeward Islands, there are Lieutenant Governors of each of the said Islands viz^t St. Christophers, Antego, Nevis, and Mountserrate, who had no Established Salaries; We humbly conceived that if Her majesty would be pleased to appoint the Sume of 200£ Sterling per annum to each of them out of the said Duty of $4\frac{1}{2}$ per Cent, it would Lykewise be for Her majestys Service and the Intrest of this Kingdome, In reference to Trade and otherwise in freeing such Lieutenant Governors from their obligation to the assemblyes whereby her majesty might be lykewise Enabled to Send from England fit persons for those Commands, as there might be occasion.

And we thereupon humbly offered that the same Injunctions might be Signyified to the Governor, Lieutenant Governors presidents and assemblyes of the Leeward Islands as to the Governor and assembly of Barbadoes with the lyke exception that the Governor in Cheif and Lieutenant Governors might be permitted to accept of a house or rent for the same from the Severall assemblyes in the same maner as proposed for Barbadoes.

reasonable termes ; and upon the whole we prepared the draught of a Charter for them with Such priviledges as we Judged they ought to have Embraced, But being particularly Solicitous to provyde against the ill effects of that pernicious practice of Stock-Jobbing, which has of late years so prevalently drawn mens minds from Honest Industry in fair Trade, and Engaged them in Tricks and artifices to Ens[n]are others, and delude the nation, with an appearance of imaginarie Riches, We inserted in their Charter Such Clauses, as we Judged might most effectually prevent that mischeif. But the undertakers haveing agreed to all the other articles proposed to them, insisted solely upon a liberty in this point, and Declared positively that unless they were permitted to Transferr their Shares each man according to his conveniency It would be impossible for them to procure the Subscriptions necessary to Carrie on that undertakeing, In which State that matter yet remains.

But whereas the necessity of makeing Some provision of this kind appears at present more pressing than ever because we have not imported the Last year from Xmas 1701 To Christmas 1702 any such quantitys as usual in former years, and that the pryces of Pitch and Tarr were very much advanced occasioned by Extraordinary means used by the Swedes to Inhance the pryce of those Commodities in Sweden to the end that neither her majesty nor the merchant may be oblidged to the arbitrary Conditions which may be insisted on by the northern Crowns or the Inhabitants of those parts, from whence those stores are ordinarily brought, We have Lately received and examined proposalls from several private persons for bringing in some Quantities of Pitch and Tarr (the Commodities of this time most wanted) from the plantations upon Contract for the use of Her majestys navy, We being of opinion that private persons, or select numbers may better open this Trade then Corporations, who must bring a Load upon that Trade by Salaries to manadgers officers and other outgoeings, which select numbers may Excuse, which proposalls we have Communicated to those Intrusted with the manadgement of that affair, under whose Consideration it now Remains.

We have been long sensible of the Inconvenience ariseing from the difficult Rates of foreign Coins in Her majestys plantations, which has occasioned great uncertanty in the Trade thither, and more Especially from the Liberty taken by some of them, Cheifly proprietyes to alter those Rates at their own pleasure, which has been an incouragement to indirect practices for Drawing away the Coin from one plantation to another, as has more particularly been practised in Pennsylvania, to the great prejudice of the neighbouring Province of Mary land, where Her majestys Directions not to alter the Current Rates of Coin have been more Exactly observed, whilst an act of assembly has been past in Pennsylvania appointing the Rate of money or Coin within that province whereby peices of Eight and Dollars of 15^d weight are made Current at 7^{sh} p peice, and that for every penny weight under or over there is to be abated or advanced 4^d p peice, so that a peice of Eight of 17½^d weight (which is the due weight) is made Current at 7^{sh} 10^d

ou[gh]t to settle a constant and fixt allowance for the maintainance of their Governors, as allso of the Lieutenant Governor who is to be resident there.

As to the province of the Massachusetts-Bay, which is a Charter Government, The Inhabitants have been allwayes averse to any Compliance, with the directions that have been frequently sent them from hence for settling a fixt Revenue for the Support of that Government, or the Governor, and upon application made to the Councill and assembly of Colonel Dudley, Her majestys present Governor pursuant to her majesties Instructions to him, they have w[h]olly declined the same, persisting in their usual way of making only temporary provisions for the charge of the Government, whereby they have Kept her majesties Governors there in a Continual dependance upon them for voluntary presents which to the present Governor has been as yet very imconsiderable.

Whereupon we humbly offered that her majesty would be pleased, by a letter under her Royal sign manual, Directed to the Councill of that province, to be comunicated lykewise to the assembly to require them, that in Consideration of the great priviledges they Injoy, they Should settle a Constant allowance Suteable to the Character and Dignities of that Government, without Limitation of time upon the Governor together with a fitting provision for the Lieutenant Governor or Comander in Cheif for the time being, In which Letter it might be intimated to them, That if they neglected that oportunity of Complyeing with Her majesties Just expectations Her majesty would be oblidged to have recourse to such Remedies as might be proper and effectual in order to a due provision therein.

As to Newhampshire where no certain provision has yet been made, We Conceived there ought lykewise to be a fitting salary without Limitation of time raised by the Assembly; and we humbly offered that Directions might be given accordingly.

As to the other proprietary and Charter Colonies vizt: Rhode Island, Connecticat, Pennsylvania, Carolina, and the Bahama Islands We could not propose any thing upon this occasion; The Governors of those Colonies, not being appoſnted by Her majesty, and depending either upon the proprietors or the people from whom they have very mean and uncertain Salarys which encourages them to Connive at unlawfull Trade and other Irregularities inconsistent with the Intrest of this Kingdom which great mischeif we have often Suggested Can only be Remedied By reduceing those Colonies to an imediat Dependance on the Crown.

The Importation of naval Stores from the plantations for the use of her majestys navy and otherwise; haveing been long Esteemed and Endeavoured, as a national good, We have accordingly applyed our Selves to the Examining and Improveing all wayes and methods by which Such Stores might best [be] produced and brought into England. Several merchants and others Haveing undertaken to Import considerable Quantities of these Commodities, upon Condition they might be Incorporated by a Charter, we had divers Conferences with them, Endeavouring to Reduce their proposall to

reasonable termes ; and upon the whole we prepared the draught of a Charter for them with Such priviledges as we Judged they ought to have Embraced, But being particularly Solicitous to provyde against the ill effects of that pernicious practice of Stock-Jobbing, which has of late years so prevalently drawn mens minds from Honest Industry in fair Trade, and Engaged them in Tricks and artifices to Ens[n]are others, and delude the nation, with an appearance of imaginarie Riches, We inserted in their Charter Such Clauses, as we Judged might most effectually prevent that mischeif. tho the same be not intrinsically worth more than 4^s 6^d upon consideration whereof We have offered our opinion to Her majesty that the said act be Repealed which has accordingly been done. But notwithstanding that particular act repealed conceiving lykewise that this general mischeif Cannot otherwise be Remedyed than by Reduceing all foreign Coins throughout Her maty's Dominions in America to the same rates, We have accordingly Represented to Her majesty that whereas peices of Eight, Seville, pillar, and Mexico are now Current in the Colony of the Massachusetts-Bay at the rate of 6. shillings p peice, By virtue of an act passed there, which was Confirmed by His late majesty, and therefor cannot be altered but by an act to be passed in the same manner; We humbly offered that Her majesty would be pleased to issue Her Royall proclamation, to be published throughout all the plantations (as well under proprietors as Charters as in those Governed by Her majestyes imediate Commission) Directing that from and after the 29th Day of September 1704 no Seville, Pillar or Mexico peices of Eight tho of the full weight of Seventeen penny weight and a half Should be received, taken or paid in any of Her Majestys said plantations, above the rate of 6^s p peice for the Discharge of any Contracts or Bargains to be made after the said 29th day of September 1704, The halves Quarter and other Lesser peices of the same Coin (of due weight) to be Reckoned allso in the same proportion, And that as for the peices of Eight of Peru, Dollars and all other foreign species of Silver Coine, whether of the same or baser alloy, the Currency thereof after the Said 29th Day of September 1704, Should stand Regulated according to their weight and finess in proportion to the aforesaid Rate Limited, for the peices of Eight of Seville, Pillar, and Mexico, so that no foreign Silver Coin of any sort be permitted to Exceed the same proportion upon any account whatsoever.

We have formerly Laid before Your Lordships an account of the undertaking for Establishing Packet Boats between England and Her matys Islands in the West Indies, The Success whereof in Seven voyages appearing to be almost constantly the same,

We humbly take leave to offer the following Scheme

We have Endeavoured to Establish a lyke Correspondence imediatly between England and Her majesties Dominions on the Continent of America by Packet boats to Sail from hence to New York or Some other port near the Center of those Colonies But the proposalls which have as yet been offered to us appearing rather to design and advantage in Trade to the undertakers then a real help to the Generality of merchants concerned in those parts, We have declined the same and are doeing what in us Lyes to Settle Such a Correspondency on better terms.

As to the Trade and fishery of Newfound Land We last year humbly Represented to your Lopps that it had been our Constant Care to prevent the Irregularities practised by the Inhabitants on those that yearly resort thither, That we had accordingly prepared Instructions for the Commodore of the Squadron Sent thither, with heads of Enquiry relateing to the Trade, The pay of the soldiers, the fortifications Security of the principal Harbours &c. In order to such further directions as Should be necessary against the nixt Season, We lykewise Layd before your Lordships the following abstract of the fishery for the year 1702° * * * Upon which we observed that our fishery had not been so Considerable that year as other preceding years which might be Imputed cheifly to the Interruption and Difficulties occasioned by the Warr and the want of a vent for our fish in the Dominions of Spain and other parts of the mediterranean Since which tyme we have Continued our Care as follows.

Upon the petition of several merchants p[r]aying for a Convoy for that Trade, We humbly Reported our opinion that two or more men of Warr might be appointed to Convoy the fishing ships in march last, and two other for the Sack ships to sail in May which were accordingly ordered.

And whereas the Salt employed in this fishery is cheifly Supplied from Portugal, We further proposed that Convoys Should be ordered for the Salt Ships from Lisbon to Newfoundland, upon which orders were Given to the Commander of the Portugal Convoy to appoint one Ship to See the Salt Ships well into the Sea from Portugall.

Haveing Represented to Her majesty the great want of a Boom and other materials for floating and fixing a Chain at St. Johns in this Countrey without which that Harbour Lay Exposed to the ffrench, and haveing Discoursed with a person Conversant in that Countrey who offered himself to Us for fixing the said Boom and Chain And gave us an Estimate of the Charge thereof we Laid the Same before Her majesty who was Graciously pleased to approve of the proposall and accordingly the materials which could only be had here were prepared, and the aforsaid person Sent with them, together with proper directions for Compleating this necessary work.

As to this years fishery we Gave the Commodore Several heads of Enquiries and Instructions in the lyke manner as for the Last and preceeding years, But it hapened that the Sack Ships and their Convoys which were to have Sailed in July Last were driven by Contrary winds into Ireland,

where they were Detained till September and did not arrive in Newfound Land before the month of october. The said Enquiries Cannot be answered till the next Season.

But upon the Informations we have taken from the merchants The most perfect account which Can yet be procured of this years fishery and is as followeth.

Upon which we observe that as well by the number of Ships employed in the fishery as of the fish taken, The Trade of this year is diminished from what it was the Last about an Eight part.

We take leave to add that by letters very lately received from Newfoundland the Lieutenant of the Company there Informs us that by the Report of two Deserters the ffrench this winter have 1500 men at Placentia, and 12 months provisions for that number; that there were 2 men of Warr 50 Guns each in the harbor and 4 more Expected from ffrence; That it was apprehended the ffrench might have a design upon our Settlements for which

no releif Can be sent this winter Season and alltho no great Credit can be given to Deserters, We have nevertheless Represented the same according to our Duties.

As to the Care which has been taken to prevent the pernicious practise of Running of Wooll, We crave leave to add to what we have formerly represented upon that head, That the prosecutions against offenders and penalties Inflicted upon Such as have been guilty Has in a great measure prevented the owlers and others from Carrying on that Trade in the Counties of Kent and Sussex, That the officers appointed to this Service upon those Coasts have continued to be of great use in the Seizures of wooll designed for Transportation, as of Silks, wines, Brandys and other french Goods brought in by Stealth and Bartered for such wooll, and that most of the wooll which is now Carried out unwrought to foreign parts is Irish or English wooll from Scotland; That the wooll imported into this Kingdom from Ireland Since christmass 1701 To Christmas 1702 Is as followeth.

As to the Custome house account We find that the Receipts for Customes amounted from Mechaellmass 1701. To Michaelmass 1702. to 2344343 lb. 16s. 2d. which is something more then they amounted to the former year; By which we Conclude that our foreign Trade has not abated Since the Warr, But we find that there was paid into the Treasury 233276 lb. less in the last year than in the former occasioned by the outgoings or Drawbacks by Debentures and allowances which in the Last account exceed the former.

And whereas we have formerly Laid before your Lordships that were over ballanced in our Trade to Sweden and the Baltic about 200000lb. p annum And in our Trade to Denmark and Norway about 150000 lb. p annum, and that for the East Indies there has been Exported from Christmass 1698 To christmass 1699 in Silver and Gold the value of 871109lb. Sterling.

We thereupon observed that by the great Quantities of Silver annually Exported and small qauntitys of foreign silver brought to the mint to be Coined for 12 years then past, It was obvious that our Silver Coine had been much diminished by those Trades; We Crave leave at present to add that by the Entries at the Custome House we find that the New Company Exported the two Last years as followes (vizt)

The most important gift of the month was a collection of 636 pieces, Russian official documents secured for the Library from the Russian Ministries of Agriculture, Finance, Foreign Affairs, War, Interior, Justice, and the Senate, by Count Mikhail Mikhailovitch Perovsky-Petrovo-Solovovo, through Miss Isabel F. Hapgood. Particularly worthy of mention are the files of the Army Annual and the Bulletins of the Military-Medical Academy received from the Ministry of War; the Journal of the Postal-Telegraph Department (1888-1906) from the Ministry of the Interior; about 200 volumes from the Senate, containing the record of its decisions as the court of appeals in general, civil, criminal cases, etc., for the last forty years; a file of the consular reports (1898-1907) from the Ministry of Foreign Affairs; the Journal of the Ministry of Justice (1903-1907); and about 150 monographs issued by the Ministry of Agriculture relating to various topics of rural economics.

Other gifts worthy of mention were received from: The American-Swedenborg Printing & Publishing Co., a "Bibliography of the works of Emanuel Swedenborg, original and translated, by Rev. James Hyde," London, 1906; from William H. Bixby, a copy of "Hamilton's Itinerarium, being a narrative of a journey from Annapolis, Md., through Delaware, Pennsylvania . . . from May to September, 1744," by Dr. Alexander Hamilton, edited by Albert B. Hart, printed for private circulation by William K. Bixby, St. Louis, 1907; from the Brazilian Minister for Foreign Affairs, 42 volumes and 15 pamphlets, all Brazilian documents, secured by Professor Leo S. Rowe; from Stewart Culin, a set of 36 facsimile letters relating to the raising of a fund to establish a chair in memory of Dr. Daniel G. Brinton; from the De Vinne Press, a copy of its newly issued specimen book, entitled "Types of the De Vinne Press"; from Henri Guyot, a copy of "L'infinité divine depuis Philon le Juif jusqu'à Plotin. Avec une introduction par H. Guyot"; from Harvard University, Bloomfield's "Vedic Concordance," volume 10 of the Harvard Oriental series; from the Lake Superior Canal Semi-Centennial Commission, a copy of "Exercises at the Semi-Centennial Celebration at Sault Sainte Marie, Michigan, August 2 and 3, 1905, together with a history of the canal by John H. Goff . . . edited by Charles H. Moore," Detroit, 1907; from Clarence B. Moore, a copy of his studies in the archæology of the southeastern portions of the United States, entitled "Moundville Revisited," Philadelphia, 1907; from Arthur Huntington Nason, a copy of his "Heralds and heraldry in Ben Jonson's plays, masques and entertainments," University Heights, New York City, 1907; from the Constitutional Convention of Oklahoma, 2 volumes and 1 pamphlet, including the Constitution of the State; from Francis Beaufort Palmer, his "Peerage Law in England," London, 1907; from Frederick G. Pauli, his privately printed "A record of a trip through Canada's wilderness to Lake Chibogamoo . . . in the summer of 1906," New York, 1907; from the City of Richmond, Virginia, 8 volumes of city documents; from Senhor J. C. Rodrigues, Rio de Janeiro, his "Catalogo anotado dos livros sobre o Brasil . . . pertencentes a J. C. Rodrigues," Rio de Janeiro, 1907; from Gino C. Speranza, a collection of 55 volumes and 2 pamphlets, Italian works of fiction, classic literature, art, etc.; from the Swedish Mission, Asmara, Abyssinia, 30 volumes and 2 pamphlets, including vocabularies, reading books, etc., in Tigri, Galla, Amharic and other languages

of North Eastern Africa, all publications of the Mission; and from the estate of William Ziegler, a copy of "The Ziegler Polar expedition, 1903-5, A. Fiala, Commander . . . edited by John A. Flemming, published under the auspices of the National Geographic Society by the Estate of William Ziegler," Washington, D. C., 1907.

Gifts were received for the German-American collection from Mrs. Fernande Richter, from the National German-American Alliance, from Rev. John Rothensteiner, from Mrs. Emma L. Seidensticker, and from the Allgemeiner Deutscher Sprachverein in Berlin.

At the LENOX branch the exhibition of modern German etchings, lithographs and wood-engravings remained on view, as did also the book plates and other engravings by E. D. French, and the permanent exhibits of Japanese prints from the Charles Stewart Smith collection, and the Century Company collection of picture-printing methods. At the ASTOR branch the plates from H. S. Williams' "History of the Art of Writing" were replaced by color plates from "Ancient Oriental Carpets" (published by the Imperial Austrian Museum of Art and Industry), while the exhibit of American etchings, lithographs, and engravings remained on view.

Picture bulletins and temporary collections of books on special shelves at the circulation branches were as follows: RIVINGTON STREET, Alexander Hamilton, Ralph W. Emerson, Edgar A. Poe, James R. Lowell, Walt Whitman, South Africa; HUDSON PARK, Stories for little folks, What the book says to you, Italy, Knights of the Round Table, Dogs; BOND STREET, Sports, American Citizenship, Opportunities for higher education in New York City, Recent economic changes, Structure and function of the human body, First aid, Across South America; TOMPKINS SQUARE, Money question, Municipal ownership, Opera, Venice, Surrender of Burgoyne, Lists in connection with public lectures; OTTENDORFER, Sun and stars, In the days of Cromwell, Colonial New York, Ghost stories, Science, Composers; EPIPHANY, Autumn, Harvest days; MUHLENBERG, Witches' night, Architecture; 34TH STREET, Public lecture reading lists; GEORGE BRUCE, Books for the younger children; 58TH STREET, British dominion beyond the sea, Greek art, Japanese drawings of the chrysanthemum, The five senses; 67TH STREET, Songs and dances, When first we go to school, Books on photography; WEBSTER, Bohemian costumes and villages; RIVERSIDE, Caricatures by Max Beerbohm, Fairy tales, School stories, Theatre; ST. AGNES, Poems of nature; 96TH STREET, Railroad stories, Out of town in October; BLOOMINGDALE, Poems, Familiar paintings, Charles Dickens, Beethoven, Panama Canal; AGUILAR, Burns and Scotland, Algiers, Ramona and the land of sunshine, Shakespeare, Federation of the world, Architecture, sculpture and painting; 125TH STREET, England, Pirate stories, California, Ireland, Light; 135TH STREET, Nursery rhymes and jingles, Indians of North America; HAMILTON GRANGE, Children of other lands, Japan; MOTT HAVEN, New Amsterdam; TREMONT, Views of many cities and classic sculpture, Plates of the Royal House of Stewart; STAPLETON, Fairy tales, The Great West, Football, Fires, Baseball; PORT RICHMOND, Arabian nights, England, Ireland, Plays for the holidays, Scotland, Transportation, Fiction for girls.

In addition there were bulletins on Hallowe'en at nineteen branches, on

new books at five branches, on China at four branches, on Columbus at two branches, on October at two branches, on Thomas Jefferson at two branches, on Henry W. Longfellow at two branches, and on Thanksgiving Day at two branches.

At WEBSTER was shown, through the courtesy of Miss Emily Green Balch, of Wellesley, a loan exhibition of specimens of Slovak and Bohemian embroidery and needle work, native costumes, dressed dolls, etc., supplemented by a collection of modern Bohemian needle work done by housewives of the neighborhood.

At 67TH STREET was exhibited a collection loaned by the American Museum of Natural History, illustrative of Arctic life, Eskimo work and industry, etc.

LIST OF WORKS IN THE NEW YORK PUBLIC LIBRARY RELATING TO HYDRAULIC ENGINEERING.

Titles printed here are a selection only. Exclusion has been most rigorous in the case of magazine articles, for which the reader must be referred to the public (card) catalogue in the reading room, and to the printed indexes of this literature, e. g. "Engineering Index," "Repertorium der Technischen Journal-literatur," etc.

Much valuable material, furthermore, will be found in catalogues of such libraries as the American Society of Civil Engineers, and in the indexes to the annual reports and collected papers of the United States Army Engineers, The British Corps of Royal Engineers, and the other professional papers of similar character.

The "Index of Economic Material in Documents of the States of the United States," prepared for the Carnegie Institution by Miss A. R. Hasse, contains many references to hydraulic engineering, canals, water supply, etc.

Resistance of ships, etc., was considered in the List of Works on Navigation printed in the Bulletin, June-Sept., 1907.

— Another copy.

This copy bound in contemporary calf, gilt tooling, is the one presented by Fulton to Napoleon on 1 May, 1798, at the suggestion of one of the Perier brothers. On the front and back fly-leaves is written Fulton's dedicatory letter "Au général Buonaparte," his "Observations sur les avantages dont jouiroit la France en adoptant le système des petits

canaux," and his "Sur la Liberté du Commerce." The letter and the two memoirs were printed from this manuscript in the "Bulletin of the New York Public Library," August, 1901, volume 5, pages 348-365.

The most important gifts of the month came from J. Pierpont Morgan, the illustrated catalogues of the "Pictures in the collection of J. Pierpont Morgan at Princes Gate & Dover House, London," with an introduction by T. Humphry Ward and biographical and descriptive notes by W. Roberts, (London, Privately printed, 1907), three folio volumes bound by Zaehnsdorf in full brown crushed levant, and "Catalogue of the collection of miniatures, the property of J. Pierpont Morgan, compiled at his request by G. C. Williamson," privately printed at the Chiswick Press, 1906, on Japanese vellum with hand-colored facsimiles, bound in full green crushed levant, this being no. 7 of the 40 copies printed on Japanese vellum.

Mrs. Henry Draper gave a copy of Henri Bouchot's "La miniature française, 1750-1825" (Paris, 1907, 5 volumes, quarto); a set of the Hollyer prints of New York city; and several interesting manuscripts. The latter included a portion (10 folios, 4" x 2.5") of a miniature Koran in Cufic characters of the 9th or 10th Century, A. D., two leaves (7" x 5") of the Koran containing portions of the 18th Surah, in old Neski characters of the 10th or 11th Century, A. D., and two leaves of about the same size containing portions of the 9th Surah, in old Cufic characters, of about the eighth century A. D., and an impression in clay of a seal and of an early coin with Pehlavi inscription. A further gift consisted of a bronze tablet (3" x 4"), the "tabella posterior" of one of the "diplomata militaria" or "constitutiones veteranorum" with inscription in Latin conferring the privileges of Roman citizenship upon Gaius Nicia son of Lucius, dated 22 November 139 A. D. (x. Kal. Dec. Justino et Basso consulibus).

Other gifts worthy of mention came, From Dr. S. T. Armstrong, 17 volumes and 16 pamphlets, including José Montero y Vidal's "Historia general de Filipinas" (Madrid, 1887-1895, 2 volumes), and a copy of "Historia de uno de los iniciadores de la revolucion filipina" por Matatag, Nueva Caceres, 1899, and several other interesting Philippine imprints of about the same date; from Willard Parker Butler, 28 volumes, French and German novels, etc.; from the executors of the estate of James C. Carter, through Lewis Cass Ledyard, eleven copies of "Law: its origin, growth and function" by James Coolidge Carter, New York, 1907; from E. D. Church, "A catalogue of books relating to the discovery and early history of North and South America, forming a part of the library of E. D. Church," compiled and annotated by George Watson Cole, volumes 1-4, New York, 1907; from the General Convention of the New Jerusalem in the United States of America, "Emanuel Swedenborg's Memorabilia or Spiritual diary from the year 1747 to the year 1765," a facsimile of the original manuscript reproduced by means of photo-typography, (Stockholm, 1901, 1905, 3 volumes); from Mrs. Cadwalader Jones, a copy of "The History of the rise, increase and progress of the Christian people called Quakers intermixed with several remarkable occurrences, written originally in Low-Dutch, by William Sewel and by himself translated into English" (London, 1722); from H. W. Mesdag, a copy of the "Catalogue of the pictures, drawings, etchings and objects of art at the Mesdag Museum," (The Hague) compiled by Ph. Zilcken, 1906; from the Museum of Fine Arts, Boston, "Communications to the Trustees" relating to problems of

administration and arrangement brought up in connection with the new building for the Boston Museum; from the New-Yorker Staats-Zeitung, 1727 volumes and 44 pamphlets, including 1338 volumes of the New-Yorker Staats-Zeitung" in its various editions of "Wochenblatt," "Sonntagsblatt," "Abendblatt;" from William Lincoln Palmer, "Revolutionary pension declarations, Strafford County, N. H., 1828-1832," compiled from court records by Lucien Thompson, August, 1907, Cambridge; and from Lucien Pissarro, Paris, 10 etchings by his father, the late Camille Pissarro.

At the LENOX branch the exhibition of modern German prints was replaced by one of etchings by Jacquemart, selected from about 450 plates in the Avery collection. Jacquemart, a master of the process of etching, devoted his talents particularly to the reproduction of objects of art in porcelain, sardonyx, rock-crystal, and other materials, which he did with marvellous skill in rendering textures. The exhibit is also of obvious interest as a display of "arts and crafts."

On the lower floor of the LENOX, the exhibition of bookplates done by the late E. D. French gave way on November 6 to a number of wood engravings by A. Prunaire, practically all added to the Avery Collection by Mr. George A. Lucas of Paris. Prunaire engraves much in heavy, vigorous lines, and gives the spirit of Daumier, for example, with the aid of some color. But his hand is capable also of the utmost delicacy of tone. His work illustrates an interesting phase of the art of wood-engraving, so little practised to-day.

At ASTOR the colorplates from "Ancient Oriental Carpets," and the American etchings, engravings, and lithographs, have remained on view without change.

Picture bulletions and temporary collections of books on special shelves at the circulation branches were as follows: RIVINGTON STREET, Alfred Tennyson, Charles Dickens, Painting and painters; BOND STREET, Music, J. G. Whittier, Irish history, Fractures, sprains, and dislocations, First aid to injured, Land of the Incas; HUDSON PARK, Health of school children, Present-day Russia, Care of the skin, Periodicals, Turkey; OTTENDORFER, Keeping-house, Japan, Adventures of the sea, Christmas; TOMPKINS SQUARE, Chivalry, Dante, November, Poetry; EPIPHANY, Days and deeds in November, Harvest days, Sea stories; MUHLBERG, United States Navy; GEORGE BRUCE, The horse; 67TH STREET, Arctic regions, Nursery rhymes; WEBSTER, Japan; RIVERSIDE, Fairy tales, Ghost stories; BLOOMINGDALE, Pilgrim Fathers; ST. AGNES, Chivalry and Knighthood, Robert Fulton; 96TH STREET, Biographies, Out of doors in November; AGUILAR, November, Election ballot, Lecture lists; 125TH STREET, School room games and exercises, Laws and ordinances, Pirate stories, Spain; MOTT HAVEN, Joan of Arc; TREMONT, Cities and classic sculpture, Japanese prints; PORT RICHMOND, Reading and recitation, Story hour, Trusts.

In addition there were bulletins on Thanksgiving Day at twenty-four branches, on new books at five branches, on Robert Louis Stevenson at three branches.

At the meeting of the Board of Trustees on Wednesday, November 13, 1907, the following minute relative to the late Alexander Maitland was adopted:

"Alexander Maitland, an original member of the Board of Trustees of The New York Public Library, died at Princeton, New Jersey, on October 25, 1907.

"Mr. Maitland was a son of Robert L. Maitland, a well-known merchant of the City of New York, and a nephew of James Lenox, the founder of the Lenox Library. Alexander Maitland, with his brother, succeeded to his father's business and carried it on successfully for some years, during which he became known as a capable and honorable man of affairs.

"In 1881, Mr. Maitland married Miss McCosh, the eldest daughter of the Reverend James McCosh, D.D., LL.D., President of Princeton University, who survives him.

"He was actively and intelligently connected with charities in the City of New York, having been for many years a manager of the Presbyterian Hospital, founded by his grand-uncle, Mr. Lenox, and for some time its Corresponding Secretary and a member of the Executive Committee, and was present at the last meeting of the Board on the eighth of October of the present year.

"He was an elder of the Fifth Avenue Presbyterian Church for many years, and afterwards became connected with the Brick Church, and was a member of the Board of Foreign Missions of the Presbyterian Church and of the New York City Missionary Tract Society.

"Mr. Maitland's connection, however, with the Public Library and the corporations which preceded it more nearly concerns us. He was a Trustee and Treasurer of the Lenox Library from the year 1880 until the consolidation in 1895.

"The history of the Lenox Library has been so personal, its field so particular and peculiar, that it might naturally have been expected that a member of the Lenox family, closely allied with its traditions, could hardly contemplate without opposition the disappearance of that Library as a separate entity, even to become a part of The New York Public Library. But Mr. Maitland was built on larger and broader lines, and as soon as it was publicly known that a consolidation was projected between the Trustees of the Astor Library and the Tilden Trust, Mr. Maitland immediately came forward and took the ground that no consolidation of those two libraries ought to be effected without giving an opportunity to the Lenox Library to become a part of the new corporation.

"Such opportunity was afforded immediately, and, aided greatly by Mr. Maitland's efforts, a committee from the Trustees of the Lenox Library met with the committees of the other libraries and finally worked out the consolidation of the three corporations, thus creating the present corporation known as The New York Public Library, Astor, Lenox and Tilden Foundations.

"In the solution of the many problems which presented themselves in carrying out this important and complicated work Mr. Maitland bore his full share, and with capacity, tact and fairness greatly assisted in creating a real Public Library and in obtaining for it the favor of the public authorities and the confidence of the public.

"He became an original Trustee, and remained such until his death. He served upon the Executive Committee from February 1, 1897, to January 31,

1902, and again from February 1, 1903, to January 4, 1905. He served upon the Finance Committee from May, 1895, to January 31, 1900, and again from February 1, 1901, to January 31, 1905; and further served upon the Library Committee and upon the Committee on Circulation.

"During his entire connection with the Library he rendered constant and efficient service and was a most valuable member of the Board.

"In carrying out the difficult negotiation with the Lenox heirs for the removal of the condition affecting the title to a portion of the real estate he rendered most willing and valuable service.

"In private life Mr. Maitland honorably and frankly pursued the even tenor of his way. He was generous, kindly, sympathetic and charitable. He made frequent gifts during his life to the Library, and by a legacy of a substantial sum under his will made it again his debtor.

"He long since obtained the affectionate regard of his friends and is justly entitled to special recognition for his public services."
